

AGWAY

HARVEST MORE PROTEIN IN '76

**After first cutting give your alfalfa
a protein boost
with a topdressing of Agway Alfa B plant food.**

Replace Soil Nutrients

An early growing season and first-cut yields have helped to reduce soil reserves. If a topdressing was not made earlier, an application of Alfa B fertilizer could help your second and third cuttings of alfalfa come on strong and fast.

Agway Alfa B

Agway has available an excellent low-phosphorus, high-potash alfalfa formula, reinforced with boron. Order it spread on the field quickly, economically and accurately with Agway Certified field spreader service.

Alfalfa, the Queen of Forages

Remember, you just can't buy high quality protein as inexpensively as you can grow it right on your own farm.

**Call now and reserve a date for delivery of
Agway Alfa B fertilizer.**

Give your alfalfa a protein boost.
