

# Raelene Harbold

[Continued from Page 61]

was second in the nation in giving oral reasons for her placings. Consequently she has the ability to express herself with confidence.

Raelene was also a Lancaster County Dairy Princess in 1973 and second runner-up in the state, so she feels that experience will be helpful as an IFYE. "I feel the dairy princess program taught me to be able to handle myself in public and go places where I didn't know anyone," she said.

Raelene is an advisor to the youth group at the Congregational Bible Church in Marietta and is presently teaching bible school. She said her pastor has given her the names of some missionaries to Pakistan who are now home in Massachusetts. Raelene has written to them with many of her questions about customs and dress.

She points out that this is the first exchange with Pakistan in many years so there are no IFYE's from last year to correspond with to get up-to-date information.

Although she doesn't yet know how many families she will have, Raelene is taking pictures of her family and surroundings here to help show her host families how she lives. She is also busily embroidering gifts to give them for their hospitality.

Another required preparation is somewhat painful - to travel to Pakistan. Raelene needs to get ten

shots, ranging from cholera, yellow fever and malaria to the more common tetanus.

In 1976 there will be 76 young people participating in the IFYE program nationally and 76 exchangees living with families in this country. Each participant from this country must provide the first \$1450 of the average \$3950 required for each two-way exchange. In Lancaster County a committee is soliciting the funds from 4-H groups, Farm Women, agriculture organizations, service and civic clubs, and local business and industry. Donations may be sent to Treasurer David Lapp, 392 Myer Terrace, Leola, 17540.

Raelene says she feels an exchange program such as this "gives us a better understanding of other countries and ourselves - we tend to take our life for granted. It is a great opportunity to experience rather than see on television. It helps us appreciate more what we have and we can be more sympathetic with others." She is already planning to share her experiences upon her return.

What are her friends reactions to this journey around the world? Raelene said with a laugh, "They are either very much for it and say 'I wish I had that opportunity,' or they say, 'you're crazy to go that far from home.'"

None of these reactions bother Raelene however. She just laughs and says, "I think it's a really great

out of the design. Mrs. Hopf recommends an Iris surgical scissors which is not curved, but straight.

"You're only as good as your tool," she says.

When beginning to cut, take the inside tiny areas first, so there is more surface to work with.

To cut out the small areas, handle the scissors as though it were a needle. . . Wiggle it through at the center of each area to be cut out and work toward the outside traced lines.

The last step is to cut out the edge.

As in all crafts, there is a trick to making the scherenschnitte turn out "professionally." That trick is to cut with the tips of the

opportunity. I'm greatly looking forward to it."

Her positive attitude is sure to help her win friends as she travels as a goodwill ambassador.

scissors and to use good cutting habits.

If you have a spare minute and a love for pretty little things "just for fancy" try the inexpensive, but enjoyable hobby of scherenschnitte.

Read the Farm Women Calendar.

# Milk production up

HARRISBURG - Milk production in Pennsylvania during May totaled 696 million pounds, up four per cent from a year earlier according to the Crop Reporting Service.

The number of milk cows in the Commonwealth during May was 707,000 head, up 4000 from a year earlier.

Milk production per cow

averaged 985 pounds in May, up 30 pounds from last year. United States milk production during May totaled 11,184 million pounds, up three per cent from a year earlier. U.S. production per cow averaged 1011 pounds, a record high, up 43 pounds from a year ago and 42 pounds above May 1974. Milk cows on farms totaled 11,061,000 head, down one percent from a year ago and one percent below May 1974.

# STAY ON TOP OF THINGS

WITH AN ENSTROM

Get more things done around the farm - in less time - with your own reliable 3-place Enstrom helicopter. Spray insecticides; inspect crops; watch for erosion; check on cattle, pastures, fences, irrigation - quickly, efficiently. Invaluable for hospital trips, getting over deep snow, floods, veterinary uses. Great for hunting, other recreation, prestige personal transportation. Costs no more than many single-engine fixed-wing aircraft. Needs no airport - just a small clearing. Easy to learn to fly. For more information, contact Helicopter Manager at [302] 834-5400.

# BROCK GRAIN BINS AND FEED BINS

130 MODELS

CAPACITY FROM 1700 TO 75,000 BUSHELS

12 TO 48 FOOT DIAMETER BINS

EARLY ORDER DISCOUNTS AVAILABLE ON BINS IN STOCK

# CARDINAL 6" & 8" TRANSPORT AUGERS IN STOCK NOW

More Capacity for Stepped-up Grain Handling

Standard Lengths 26', 31', 36', 41', 46', 51', 56'. Electric Motor or P.T.O. Drive

## INTAKE DRIVE

Adjustable Intake Control Standard Equipment

Drive from power source is through 1-1/16" steel short shaft to RC60 roller chain and steel sprocket assembly in the transmission housing at the "boot end" of the auger. Heavy duty ball bearings are lubricated for life and sealed.

INPUT AUGER FLIGHTING is extra heavy, 3/16" thick, for increased wear life. The O.D. of this flighting is 1/2" larger to increase capacity due to less material roll-back.

ELECTRIC MOTOR DRIVE includes heavy duty gear box, 3 groove drive pulley and adjustable motor mount

GASOLINE ENGINE DRIVE includes heavy duty gear box, 2 groove drive pulley and adjustable engine mount

# FARM FAN DRYERS

# "TEMPER DRY"

YOUR GRAIN FOR PROFIT

## FARM FANS

offers you a choice of 5 outstanding grain dryers - 3 CMS models that utilize the exclusive continuous multi-stage principle. . . 2 AB models that utilize the staged automatic principle. All 5 dryers are fully automatic. They cost less to buy and less to operate.
