- SIMPLE TO CLEAN
- PRACTICALLY MAINTENANCE FREE

PUT WATER WHERE IT'S NEEDED WATERMASTER 3

Molded from polyethylene for ease of cleaning and maximum life. The Watermaster has been designed for use by broilers, pullets, layers and turkeys from day-old onwards.

The Bec 75 Waterer:

1. Takes up less room in the house-more room for the birds.
2. Its distribution that counts - more drinking points, for the same money, means that the birds have less distance to walk to water.
3. Lighter and more convenient to handle and lean.
4. At the end of the crop, easy to empty house one person can carry 50 to 100 waterers.
5. Easy Connections: a) Saddle connector b) Tube fittings c) New easy method of raising and lowering the waterer with hanger box.

VACUUM EGG LIFTER

We also sell and service all type of vacuum pumps and vacuum lifter heads.

We handle the following items: 5-90 Case Per Hour Canners and Graders, Egomatic Equipment, Parts and Products, Kuhl Equipment, Parts and Products, Burch Coolers, And All Other Supplies For The Poultry Industry.

We also stock parts and other supplies for the processor, including detergents and Anti-Foam.

CYCLE SYSTEMS

OFFERS GREATER

PROFITABILITY
Because Our System
Design Is Based Upon:

I. Feed, Water, and air efficiency

- * Feed system uses automatic controls for reversing and intermittent feeding
- * Chain in pipe system fills a deep trough to the level needed by the birds and permits controlled feeding
- * Water runs intermittently on a timer, set depending upon use

II. Most effective ventilation in the industry

- * Light controlled inlet full length of building provides uniform flow of fresh air, keeps birds healthy, and helps to dry manure. Most manure from these buildings comes out after one year, at a relatively low moisture content.

III. Highest possible quality

- * Steel truss buildings erected and installed by Cycle
- * Complete quality control checklist and regular on-site inspections
- * One year guarantee

IV. Less man hours for operation and maintenance

- * Equipment all on one level
- * High rise buildings, manure removal once per flock or as desired
- * Birds checked from carts, no walking

V. Greatest possible simplicity in egg handling.

- * Eggs all on one level, more Grade A's per flock, no elevators, eggs go from 5" belts onto a cross belt direct to packer
- * 5" belts are all driven by one variable speed motor
- * Components are top quality, heavy duty bearings, polyurethane drive rollers, welded steel frames.
