

Does anyone recognize this photograph? It was sent to Lancaster Farming by Delaware businessman, William G. Ott who found it in an antique frame he purchased at a Lancaster County

auction earlier this year. He believes the picture may be 50 years old or more. It was taken by Schlauch Photography, New Holland.

Work is still underway on the new sales barn at the New Holland Sales Stables. It will be complete in a few weeks but the pens have already been put to use.

**HAY FEEDERS**

These feeders are built of heavy gauge tensil 1" square tubing 40 percent stronger than round tubing. Rugged construction, light enough for one man to easily drop over a large bale or load. Pays for itself with just a few bales use, rugged all welded construction. Feeds up to 30 head at one time. Versatile - use for big round bales, conventional bales or other roughage. Keeps hay and other roughages out of mud and snow, used by cattlemen nationwide. These feeders are 48" high and 8' radius weighing 100 lbs.

They sell for \$120 each delivered, completely assembled and painted, ready for immediate use. 5 percent discount on 2 or more. Other heights on special order.

**SPREADERS Built Extra Rugged To  
Work When You're Ready.**

- No worry about rusting. We'll provide new sides free if they ever rust through while the rest of the spreader is still operational!
- Ribs run full length along the sides for extra rigidity!
- More steel on top lip withstands blows from loader bucket!
- Beefed up frame takes pressure of peak loads, rutted fields!
- Reinforced side joints give more support to beaters!
- The country's number one spreader line - 6 box types and 5 tank types!
- Capacities from 108 to 358 bushels!

Come in today and compare your manure spreader with our Strong-Boxes!
