

Clean and sanitize your dairy operation ... with five new products from

With the introduction of our five new products, you now have a total of nine to choose from. Wayne Foamchek 100 is a heavy duty acid cleaner and milkstone remover for CIP

installations. It leaves equipment clean and sparkling.

For manual cleaning, try Wayne Kleen-Ezey. An excellent stone remover, it also removes rust.

Another new fast-action product is Wayne Dairy Manual Cleaner. Free rinsing, it works in varying water conditions and is biodegradable.

If your operation's equipment calls for the use of a liquid alkaline cleaner, low-sudsing Wayne Liquid Dynemate may be your answer.

And, dairy sanitizing problems are quickly and conveniently solved with Wayne Dairy Sanitizer.

ALL MILK PRODUCTS

Many millions of calves have been raised successfully and economically on Wayne Calfnip. Today's Calfnip is better than ever before as the result of continuing Research developments. Calfnip is high in milk products with all milk protein. Antibiotic fortification as well as high vitamin levels give optimum growth and performance under stress conditions. High energy comes from 10 percent quality animal fat in dispersible form. Smooth, glossy hair coats, growthy calves, less digestive upset, and ease of feeding are a few more reasons for the wide acceptance and popularity of this outstanding milk replacer. Calfnip saves two ways. It costs less and produces a good calf with

substantial savings over whole milk feeding.

Wayne Calfnip is an excellent food for other baby animals. It can be mixed with water, as for calves, and fed to orphans or fed dry to supplement other food. Orphaned calves and baby pigs really go for Calfnip. It gives them better condition and appearance.
