

"Americana," a blue and red cross stitch pattern on white background, was one of the two top selling quilts at Monday's quilt auction. The other was "Cathedral Window," which also sold for \$300. All the proceeds from the sale will go to the York 4-H Center Kitchen Equipment fund.

Peachilicious

[Continued from Page 52]

Mrs. McPherson noted that she and her helpers went through six large tubs of peaches and she estimates

that about 40 pies, cut into eight slices each, were eaten. Also, she approximates that 160 gallons of

Gail McPherson, coordinator of the three-day Peachilicious Weekend, gets ready to hand out some delicious peach pie and ice cream. The various peachy foods were a big drawing card of the weekend.

homemade ice cream were gone through during the event.

Ice cream and pies were only part of the peachy fare offered during the festival, however. There were also peach shortcake, make-your-own sundaes, peach punch, peachy hot dogs, and pork sandwiches.

The Pork Producers of York County held the pig roast for all three days of the event. It was such a popular item that the roast pork lasted only two hours the first day. The second day, a fresh ham was added to stretch the day's proceeds, and on the third day, loins were added. However, they nevertheless ran out all three days.

The McPherson peach orchard was also picked clean. Mrs. McPherson says, however, that some of the peaches dropped a day or two before expected, so not all of the fruit went into the visitors' baskets.

Twenty craftsmen also participated in the event by selling their peach-related wares in the display building.

Since promoting peaches in general was the main objective of the weekend, the

Mrs. Ethel Gross (right) and Mrs. William Hake (left) headed up the quilt project. They began preparing for Monday's quilt sale about a year-

and-a-half ago. Here, they are demonstrating the art of quilt making to any and all passers-by during Peachilicious Weekend.

New Cage Design Removes Board Scraping Problems in High Density Systems

NORTHCO SLANT BACK CAGES

SLANT BACK This unique cage design eliminates dropping board scrapers and the work that comes with them. Vinyl shields deflect manure into the pit.

HIGH DENSITY Increase bird population and cut building costs with Northco High Density/Slant Back Systems. A 36 ft wide house can easily handle four rows of triple deck 16 inch deep cages.

Northco High Density/Slant Back Systems are the functional way to make more from your investment. More profit. From more eggs. Produced by more birds. Only one thing comes up less—your labor.

Northco roof exhaust ventilation helps your system produce more. Fresh, clean air moves continuously through the house.

Find out more about Northco High Density Systems. Available with exclusive core-type auger feeding and patented automatic egg gathering.
