THE WIND TO FREE

and so is underground water
The initial cost may be more, but "the ecological machine of the century" doesn't require running electric lines, and, best of all, there's no electric bill to pay

AERMOTOR windmills require nominal attention usually just change the oil once a year and, then, just let them pump your water requirements

AERMOTOR Water Systems SINCE 1888

Give us a call We're always glad to talk about windmills
