Officers elected

BLUE BALL, Pa. - Officers for three locals of Inter-State Milk Producers were elected recently at the annual meeting, here. In addition, it was the occasion for the presentation of 25-year membership awards.

The dairymen recognized for membership were: John B. Ranck, Jr., New Holland R3; Clarence M. Hoover, New Holland R3; and Roy Benner, Gap R1. Congratulating the men for their membership awards, Inter-State's general manager, Dr James Honan, commented that it is that sort of dedication which has made Inter-State successful and such continued support is needed in the future as well.

New officers of the Gap

Extension agents place in national contest

NEWARK, Del - Three Delaware Cooperative Extension Service county agricultural agents have been named state winners in the 1976 Public Information Awards Program. The national contest is sponsored annually by the National

Association of County Agricultural Agents (NACCA) and Amchem Products, Inc. Two of the state winners went on to place second and third in their classes in regional competition. William Henderson,

Sussex county agricultural extension agent at the University of Delaware substation in Georgetown, was a state winner who also placed second in the Northeast region. His entry was a radio tape in the radio program class. The Northeast region consists of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont.

The business

Heard the good news?

Between 1972 and 1973 an old friend of the commercial egg producer quietly slipped from view. Some folks called her the best feathered friend they ever had. They've missed the "old" B-300 sorely in the last few years. And they've told us so.

When the "old" B-300 - we call her the B-300V - retired from Random Sample Testing in 1973, she had an unmatched record of consistent performance. More importantly, she was a legend in her time...in the field...in your poultry house. She made businessmen out of thousands of poultrymen. She was the standard to which competitive strains compared their performance.

The B-300V was nearly perfect for the times. But we knew that times were changing. We knew that tomorrow's top layer had to have a stronger eggshell. We were committed to making the B-300V tomorrow's top layer. Tomorrow is here.

For the past 5 years, the B-300V has been in a concentrated program of eggshell improvement. It has paid off in results...without sacrificing the performance that made her your top choice in the "good old days."

Dust off your old records and take another look. Better yet, ask your Babcock distributor for his latest performance data on the B-300V.

Try a flock. Compare it to the best of your present stocks. We know you're going to be pleasantly surprised.

The businessman's bird is back...and better than ever before. The B-300V.

Something new is hatching at your Babcock distributor's...today!
