Extension corn plots displayed for visitation

ATGLEN, Pa. - Seventy-four different corn hybrids from more than 19 different seed corn companies can be observed at the Chester County Corn Hybrid Display Plot. These hybrids are planted side-by-side on the Nelson K. Stoltzfus farm located on the Highland Road, about one mile east of Rt. 41 and the Octorara High School, Atglen. The hybrids will be left standing until November 1, so that farmers may have the opportunity to compare differences in standability.

On November 1 starting at 9 a.m., the plots will be hand harvested. Farmers are invited to attend. Bring your husking peg, and observe the differences. Rain date is November 2.

Farmers enjoy the day at the Chester County Corn Hybrid Display plot.

USDA outlook planned

WASHINGTON, D.C. - Emerging issues in farm policies, environmental quality, weather, the general economic outlook, international trade, and the food outlook will be major topics of speakers at USDA's National Agricultural Outlook Conference to be held here Nov. 15-18.

The conference, sponsored by USDA's Economic Research Service, Agricultural Research Service, and Extension Service, will feature presentations and panel discussions by leading authorities in government and business. In addition to policy issues, the conference will present the outlook for agriculture and the general U.S. economy in 1977, as well as discussions of agricultural trade prospects, probably commodity developments, and family living concerns.

To obtain a preliminary program for the 1977 National Agricultural Outlook Conference, write to the Publications Unit, ERS-Division of Information, Room 0054 South Building, Washington, D.C. 20250.

Hubbard guide offered

VINELAND, N.J. - A new management guide for the Hubbard Leghorn has just been released by the Research and Development Division of Hubbard Farms, Walpole, N.H.

The 12-page booklet contains management and feeding recommendations from day-old through the laying year. It is divided into three major sections. The first portion deals with the brooding period, with separate recommendations for both floor and cage brooding.

The second section deals with rearing, while the third covers the laying period

Kathy Hall 4-H winner

UNIVERSITY PARK, Pa. - Kathy Hall, 17, of RD2, Littlestown, who has compiled an outstanding record in 4-H work, recently was named state recreation contest winner in the 1976 4-H National Awards program.

Kathy will be eligible to attend National 4-H Congress in Chicago, Nov. 28 - Dec. 2.

Mr. Carroll L. Howes, associate 4-H youth division leader at The Pennsylvania State University, who announced the selection, said she was judged on the basis of her project work, leadership ability, and participation in county and statewide activities.

She was picked from among the 145,000 young adults who annually take part in the Extension Service educational 4-H program.

The daughter of Mr. and Mrs. Ronald B. Hall, Kathy is a senior at the Littlestown High School. She has been a 4-H member for eight years.

A member of the Mt.-Pleasant 4-H Club, she served as vice president and county council senator. She also assisted with club activities and events as a teen leader.

The state recreation contest winner completed projects in recreation, photography, gardening, foods, clothing, handyman, teen leadership, bicycle, and rocketry.

Kathy Hall

Locally, she took part in the roundup, exchange program, officers training, achievement night, tours, and fun night.

She also attended the Regional 4-H Teen Leaders Retreat, District 4-H Camp, Pennsylvania 4-H Leadership Congress, State 4-H Achievement Days, and Farm Show.

Kathy was recipient of the Danforth "I Dare You" Award.

Commenting on the values of the youth program, Kathy said: "4-H has taught me how to work with other persons and has assisted me in deciding on a career."

She is one of 40 Commonwealth 4-H members being selected as state contest winners in the various project categories.

Outgo Eats on Income

Production expenses took \$3 out of every \$4 earned by U.S. farmers' crop and livestock sales in 1975.

On October 8, 1776, at Baltimore, Md., the boats sunk across the channel opposite Whetstone Point were raised when the British threat was gone. The boats

were reconditioned and returned to their owners. Complaints began coming in such as that from Capt. William Worth that the Dolley was missing an anchor and cable. He wanted reimbursement
