## Broadcast Ortho Unipels this fall

come spring,  
use just 50 pounds  
of Unipel  
Starter Special  
as a dry "pop-up"

# ORTHO

P. L. ROHRER  
& BRO., INC.

SMOKETOWN, PA  
PH: 717-299-2571

If your aim is to practice high-yield, precision agriculture, you want more out of fall fertilization than just a head start on spring planting. To get it, you need a precision-made fertilizer.

Visit your Ortho dealer and check into UNIPELS. UNIPELS are uniform in analysis, shape, and density from pellet to pellet — not bag to bag or ton to ton . . . the kind of uniformity that delivers a balanced diet for every plant in the field.

UNIPELS contain both quick-acting and long-lasting forms of nitrogen and phosphate homogenized along potash in every single pellet. This means that UNIPELS, plowed down in the fall, will work for you all year 'round.

The same unmatched uniformity and high analysis enables corn growers to apply UNIPEL Starter Special next spring as a "dry pop-up" — right with the seed! With that kind of precision, all you'll need is 50 pounds per acre!

Get maximum value from your fertilizer investment this fall. See your Ortho dealer now, and learn the details on UNIPELS, the new All-Season Fertilizer.

**Financial advice especially for farmers!**
