

Discovered In Research . . . **PROVEN on the FARM!**

In September, 1975 the team at Master Mix Research introduced a **BREAKTHROUGH IN BABY PIG NUTRITION**. No longer content with traditional baby pig rations that do little more than imitate sows milk, Master Mix Researchers went a couple of steps further. **RESULT: SOW'S MILK and PRECISION BABY PIG FEEDS** now **COMPLEMENT** each other, working **TOGETHER** to produce faster gaining, better looking and healthier baby pigs. And everybody knows that is the type of pig that will keep on doing well all the way to market.

The great new team in baby pig nutrition
