

# There's more to gain with "precision feeding" of baby pigs.

Faster gains on less feed can be as easy as 1-2-3 with our "Precision Baby Pig Starter Program" from Master Mix Research.

**Primer 1** supplements sow's milk with high energy levels for improved gains and more efficient feed conversion. Reduces scours, too.

**Primer 2** from weaning to 40 lbs. body weight, contains high energy levels and amino acids the baby pig can quickly utilize for fast extra gains.

**Pig-Gro 3** is formulated for all pigs up to 60 lbs. Based on an amino-acid-to-high-energy concept that maximizes quick gains with minimum feed costs.

Come in. Let us show you why there's more to gain with Precision Baby Pig Starter feeds.
