

The new officers and board of directors of the York County Holstein Association assembled for a photo at the most recent meeting. Seated are (left to right) Tom Boyer, York, vice president; Larry Ampsacher, York R7, secretary-treasurer; and

Leroy Bupp, Seven Valleys R2, president. Standing are (left to right) Mike Stewart, Airville, director; Paul King, Delta R2, state director; Jed Beshore, New Cumberland, director; David Stewart, Delta R2, director; and Ellis Crowl, Airville, director.

York Co. Holstein Assn. plans yearly activities

YORK, Pa. - The Board of Directors of the York County Holstein Association met January 26 at Moser's Restaurant, York, for their annual luncheon and yearly planning meeting.

Officers elected to serve during 1977 are: Leroy Bupp, president; Thomas Boyer, vice-president; Larry Ampsacher, secretary-treasurer; and Paul King, state director.

Several other directors have been appointed to serve as committee chairmen.

They are: Michael Stewart, sales committee; Larry Ampsacher, special activities; Thomas Boyer, youth committee; Ellis Crowl, county show; Jed Beshore, breed improvement; and Thomas Boyer, annual banquet.

A calendar of activities for the year was scheduled for Association members. The Special Activities Committee will present an educational program during the Spring Barn Meeting, to be held March 16, at Avalong Farms, York. The meeting

will begin promptly at 1:00 p.m.

Northern Virginia Holstein herds will be visited during a bus trip on April 5. Information on registration for the tour will be available at the barn meeting.

The Ellis Crowl family, Airville R2, will host the county-wide Holstein picnic.

Scheduled for July 26, the meeting will include a program on dairy operation manure management.

Other tentatively scheduled activities are the County Black and White Show, August 17, at the York Fairgrounds, and the annual meeting and banquet on October 21.

Legislation proposed to cut government programs

WASHINGTON, D.C. - "Sunset legislation" which would end each government spending program every five years unless Congress specifically re-enacts the program after a thorough review, has been proposed on Capitol Hill.

The type of zero-based budgeting called for by the "sunset legislation" is already being used in much of private industry as well as many state and local governments.

Under the proposed legislation, all federal laws authorizing the spending of money would expire after a five-year period. Programs in the same area would expire the same year.

What's new

MINERAL FEEDER

Feed Service Corporation, Crete, Neb. has introduced an all-new polyethylene mineral feeder. It has ten compartments for the free-choice feeding of ten separate mineral elements. It is rugged, durable, light

weight and it will not corrode or deteriorate. The feeder comes in two models. It can be mounted on a tripod and turns with the wind to make it weatherproof. It can also be purchased on a permanent steel base with a heavy cord-rubber door to make it weatherproof.

John Deere 60-hp 2440

Ideally compact size extends its capabilities

The 2440 isn't a "small" tractor, nor is it a "big" tractor. The John Deere 2440's ideally compact size suits it well for many hard-to-fit jobs. Loading, for example — that's just one of many 2440 tight-quarter specialties.

The 2440 comes with a variable-speed diesel engine, 8-speed transmission, draft-sensing 3-point hitch, "live" PTO, powerful closed-center hydraulics and much more — all as standard equipment. That list of base-price features qualifies this compact John Deere Tractor for most any job — field or farmstead.

The 60-hp John Deere 2440 — its specialties are many. It's a great fit on any operation especially yours.

Stop in and see this lively John Deere 2440 today.

Clean tight quarters with this short-coupled loader

We have the John Deere 145 Loader that's specially designed to make the most of John Deere Utility Tractor power. Close coupling of tractor and loader gets you into the tight spots. Visit us soon and see the 145.

Have both solid and liquid manure?

Semiliquids, frozen chunks, wet sticky stuff. Whatever your manure-handling problem, we've got the answer — a John Deere Flail Spreader. Inspect one yourself. You'll like the leakproof, welded-seam tank. Rugged flails claw away at the hard stuff. And the exclusive single-pole hitch lets you make tight turns.
