

Farm Fans, Inc., a leading manufacturer of grain dryers and grain conditioning equipment, presented the bronze award to Marvin Herr, of E. M. Herr Equipment, Inc., Willow Street, in recognition of outstanding sales achievement in 1976. The presentation was made at their recent national sales meeting in Waikiki Beach, Hawaii. Shown left to right, are John R. Nichols, vice president of Farm Fans, Inc.; Marvin Herr, award recipient; and Paul W. Sindlinger, president of Farm Fans, Inc.

ROHRER'S ARE DISTRIBUTORS FOR BANVEL HERBICIDES

BANVEL®

Herbicide

Post-emergence application gets to the root
of your tough broadleaf weed problem

Banvel from Velsicol controls hard-to-kill broadleaves ... smartweed, pigweed, morning glory, thistle, many others. For one simple reason. Banvel translocates. Absorbed by leaves, stems, roots, Banvel moves with plant fluids from leaf tip to root tip. Destroys as it goes. So, no regrowth. Ask us for application details about Banvel, today.

BANVEL® + atrazine

New tank-mix combination kills young, tough broadleaves, vines, grasses before they damage your corn

Banvel + atrazine together do a broad-spectrum job on weeds resistant to 2,4-D and not controlled by atrazine alone.

Spray 3 to 15 days after corn emerges, when grasses are less than two inches. Ideal for narrow-row, minimum tillage programs. Season-long control. Usually no need to cultivate.

Today is the day to order Velsicol's Banvel plus atrazine as part of your corn-pest control program.
