GO Zero Concord FROM TEAT TO TANK!

NEW MODEL 70'S
Zero Concord
TWIN-VACUUM PIPELINE MILKING SYSTEM
- WITH COW MONITOR

It's a combination of a new, revolutionary pipeline milking machine and the ZERO Completely-Automated Vacuum Bulk Milk Cooler.

The ZERO CONCORD is the only system that provides stable milking vacuum at the teat end—in parlor or stanchion barn—with a low or high, short or long, pipeline—and without injecting air into the milker units to move the milk. Only with stable vacuum and no air injection can you hope to reduce leucocyte counts up to 65%—increase milk production as much as 20%—and prevent off-flavor and rancid milk.

The safe, stable vacuum is made possible by a patented, scientific principle—TWIN-VACUUM—whereby one vacuum milks the cows, and a different vacuum moves the milk through a separate pipeline into the bulk tank. In addition—thanks to ZERO's patented SPATTER-SPRAY Automatic Washer and new, improved, high-capacity, transparent milker unit—you have built-in, "push-button", visible self-cleaning and sanitizing of the entire system—without disassembling. And there are many other advantages.

Zero - PIONEER OF FARM BULK MILK COOLERS

THE BULK MILK COOLER THAT HAS EVERYTHING

including **AUTOMATIC WASHING SYSTEM!**

The Mueller Model "OH" with HiPerForm cooling, Mueller-Matic Automatic Washing System, and built-in freeze protection control is the most advanced bulk milk cooler in the world. The nation's most progressive dairymen are using it. Shouldn't you be?

MUELLER NEW MODEL "MW"

The "MW" is one of the Lowest pouring Height Bulk tanks. Check with us all the added new features of the "MW" bulk tank.

If you are in the market for a bulk milk cooler and you don't check all the advantages of the Mueller Models "OH", "MHL," and "MW" you may be buying an obsolete cooler.

POLLUTION SOLUTION

Over the years Deutz has developed a highly efficient combustion system that greatly reduces the emission of hydrocarbons and oxides of nitrogen. More complete combustion not only results in less pollution but in greater fuel savings. A happy combination. Buy or specify Deutz air-cooled diesel engines—10 to 500 bhp
