

## Walker to form consumer group

WASHINGTON, D.C. Congressman Bob Walker this week announced the formation of the "Advisory Congressional Consumer Taskforce" which will consist of one panel in each of the 16th District's three counties.

The "Advisory Congressional Consumer Taskforce", to be known as "ACCT", will aid Congressman Walker and his staff in keeping 16th District residents abreast of developments in consumer related matters and advise him on consumer legislation as it comes before the Congress.

"ACCT is a way of involving my constituents, listening to their particular needs and views which can aid me in representing those views in the Congress.

"Also, I intend to use ACCT and its activities as a basis for my own legislative initiative in the field of consumer protection," Walker said.

"ACCT" will be a citizen-volunteer organization and Walker noted that he hopes it can serve as an alternative to the costly bureaucrat-agency approach often proposed as the only means for government to respond to the individual consumer.

"ACCT" will hold regular meetings with times and places to be determined. Congressman Walker is urging anyone with a desire to serve on an "ACCT" panel or work with the group to contact his Special Assistant For Consumer Affairs, Marc Phillips, at his Park City office, (717) 393-0666.

### MUELLER HiPerForm

Mueller introduces HiPerForm<sup>®</sup> the completely automatic bulk milk cooling system for today's progressive dairyman. Durable stainless steel Model "OH" cooler features direct expansion refrigeration for efficient cooling, freeze-prevention control and large radius corners and smooth welds for optimum cleaning. Cooler capacities range from 300 to 5,000 gallons. With the flip of a switch, Mueller-Matic<sup>®</sup> Automatic Washing System engulfs the interior of the cooler with jet spray wash and acidified rinse.

Ask your local Mueller Distributor for all the facts about the revolutionary HiPerForm cooling system. He's ready to help you with expert sales and service.

Now, let herd size determine your cooler capacity, not milk house space limitations. Depend on MUELLER.
