

OUR NEW 9-FOOT CUT/DITIONER DOES EVEN MORE FOR LESS MONEY

Farmers tell us our 7-foot Cut-ditioner does more work than a 9-foot mower-conditioner. Why? Because it's a plug-free machine. So just imagine what our new 9-foot 279 Cut-ditioner will do! You save hundreds of dollars in terms of initial equipment cost, plus get more work done faster. The 279 is a better way to get high-quality, faster drying hay in both heavy and light crops. Whatever your operation: chop, bale, stack, or bigroll!

The New Idea 9-foot Cut-ditioner is a high-capacity machine with a minimum of moving parts to wear out and maintain. And it's versatile. In addition to cutting, conditioning, windrowing and swathing, it can be used to ted,

turn windrows, trim pastures and gather and condition crop residues. Because of this versatility, farmers called our original 7-foot Cut-ditioner the "Hay Thing."

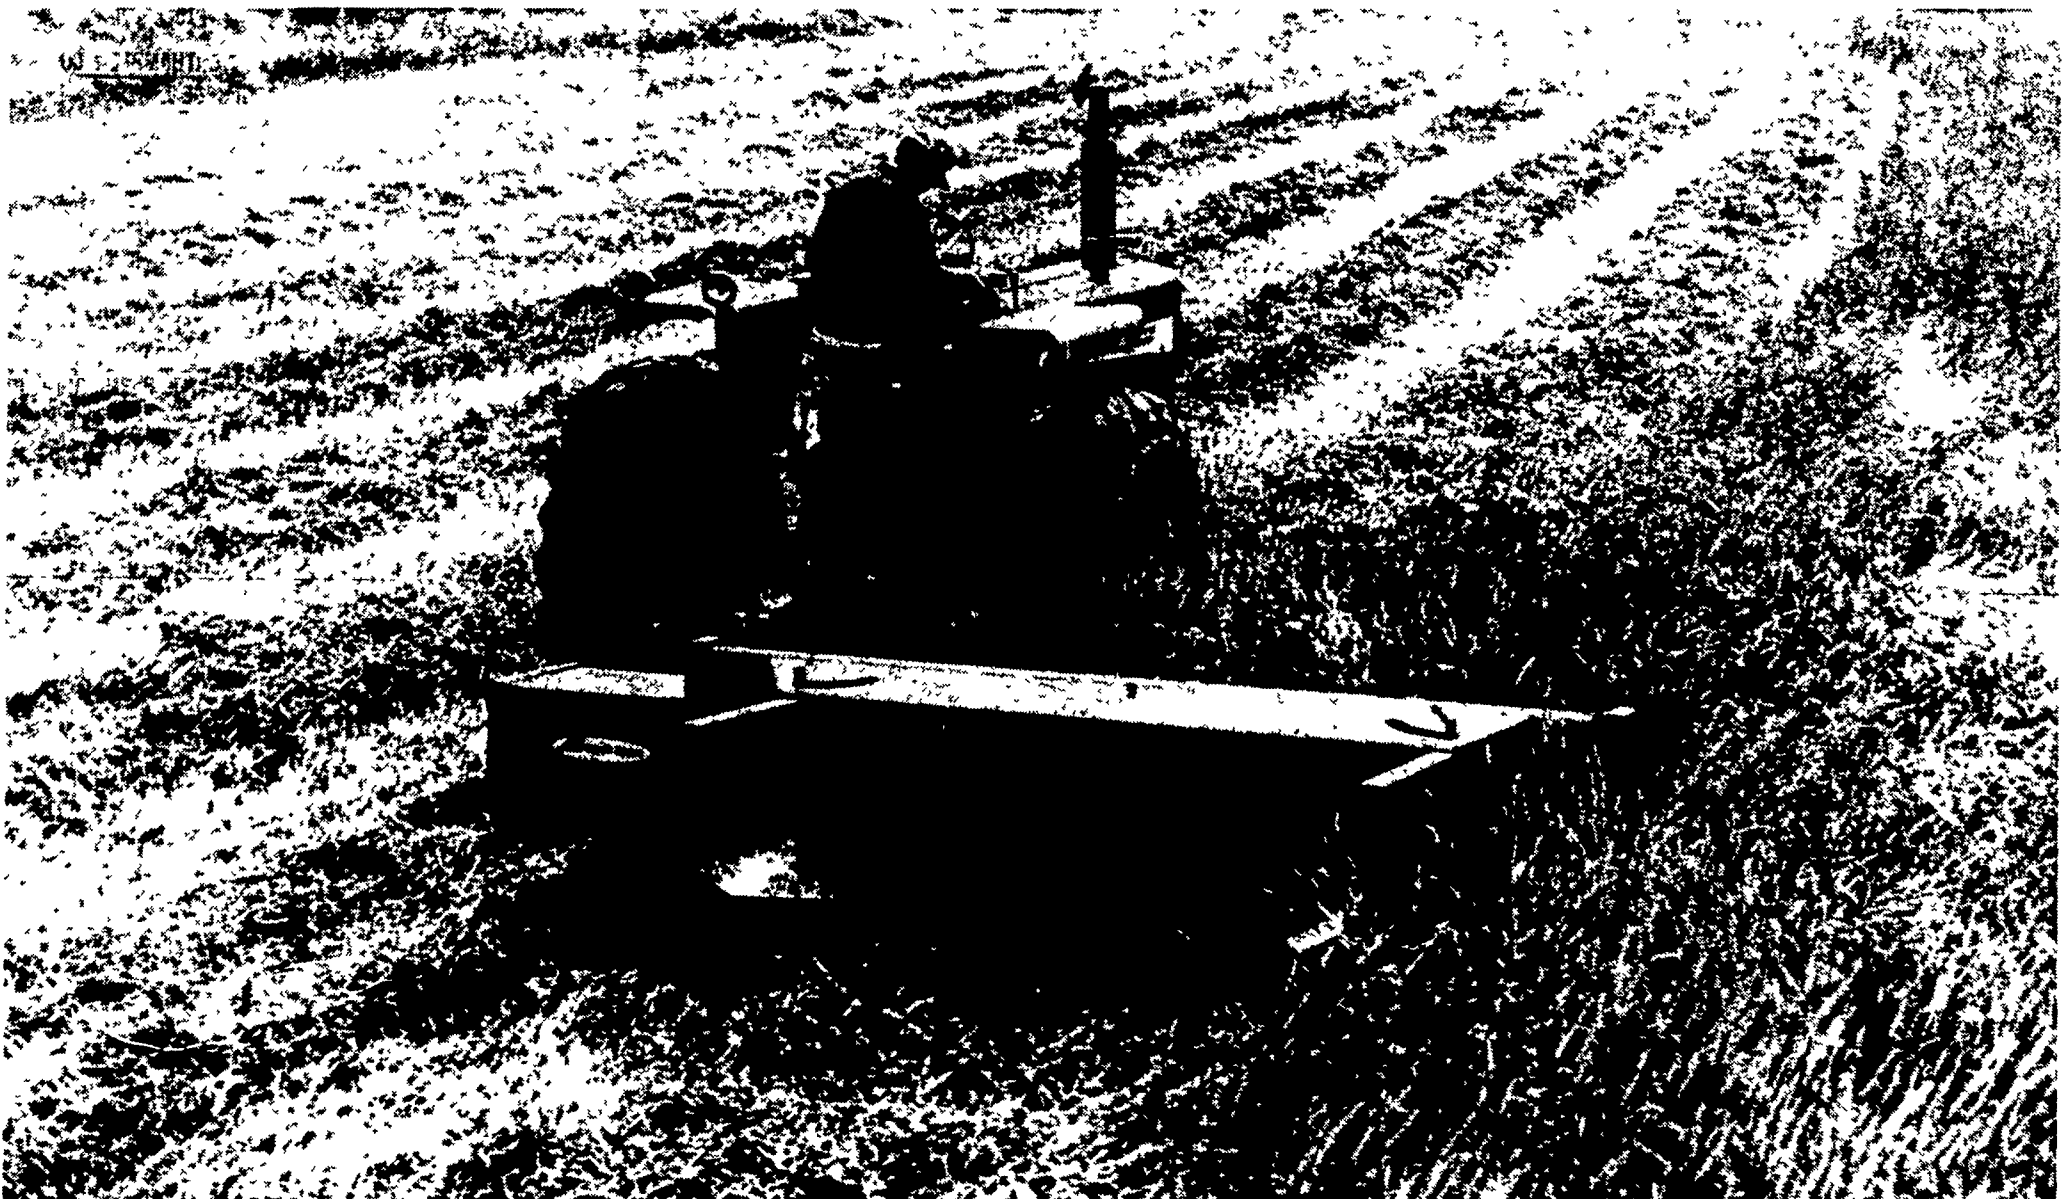

You can still buy the popular 7-footer that does more for less money. And, now we've got a bigger "Hay Thing" going for you, the new 9-foot Cut-ditioner that does even more for less money.

It's your choice. We made both to suit your particular needs. But one thing's for sure - when you buy either Cut-ditioner, you'll have it around to do a lot of work for a long time. It's the non-stop, trouble-free, low-cost way to make high-quality hay.
