

CHORE-MATIC®

The Complete System Plus ♦♦♦

FLEX AUGER supply system

Complete adaptability and greater efficiency through advanced design. These are the hallmarks of the Flex Auger System. A system that has earned the reputation of being the *best* means ever devised for feed conveyance.

Adaptability
The ability to convey feed in any direction makes the Flex Auger extremely adaptable.

to most any type poultry house, small or large, one or more floors. * The feed conveying tube is easily mounted up and out of the way of men and machinery. It can be supplied in any length needed up to 250 feet.

Efficiency
Capable of delivering up to 2400 pounds of feed per hour with a one horsepower motor operating at 328 RPM's, the Flex Auger Supply System has the *lowest* operational cost! Feed is kept fresh in a

closed tube and feed consistency is not impaired, due to the cradling action of the Flex Auger.

Advanced Design
Eliminating many of the problems found in other systems, the Chore-Time Flex Auger makes possible new standards of profit, productivity and performance. The advanced design of the spring-steel auger

obsoletes linkage conveyors, with their wear and breakage problems. It eliminates cross-over and corner problems. It's the single, one-piece straight-line auger that *doesn't wear out, doesn't break and doesn't need adjustment!*

Round-pan feeding system

Model C Feeder Pan
Cut-A-Way
The Chore-Time Feeder Pan is a revolutionary new design in poultry feeding. It is a single, one-piece, straight-line pan that is easy to install and maintain. It is the only pan that can be used in any type of poultry house.

Model C Feeder Pan Cut-A-Way

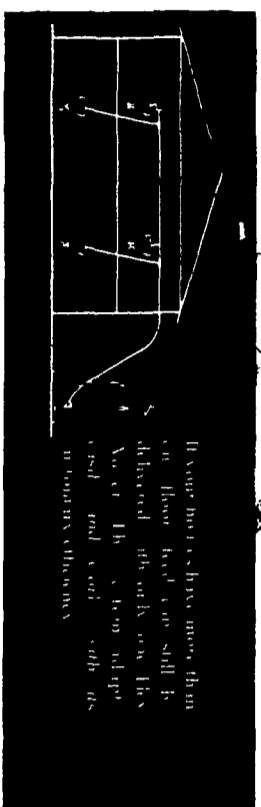

The Chore-Time Feeder Pan is a revolutionary new design in poultry feeding. It is a single, one-piece, straight-line pan that is easy to install and maintain. It is the only pan that can be used in any type of poultry house.

Power Lift Suspension system

CHORE-TIME'S POWER LIFT SUSPENSION SYSTEM is a revolutionary new design in poultry feeding. It is a single, one-piece, straight-line suspension system that is easy to install and maintain. It is the only suspension system that can be used in any type of poultry house.

*Multiple floors?

One Flex Auger!

If your birds have more than one floor, feed can still be delivered. The Flex Auger is designed to be used in any type of poultry house.
