

Lackawanna cow sets butterfat record

SCRANTON - Shey Lucky Grace, bred and owned by George and Paul Sheypuk, Jermyn, in Lackawanna County, is the new state leader in butterfat production for senior 4 year olds with a record high production of 27,670 pounds of milk and 1,180 pounds of butterfat in 305 days on twice a day milking.

No stranger in Lackawanna County for record breaking, Grace was the best two-year old in the County, producing 840 pounds of butterfat in 305 days. In her second lactation she made 1080 of fat carrying twin heifer calves and now its 1180 for a record high production for senior four-year olds in Pennsylvania.

She milked 321 days in her record breaking lactation and finally made 28,165 milk testing 4.3 and 1208 of fat. She was carrying a calf and freshened again on March 23, 1977 is milking 120 pounds a day testing 5.0.

She's a Lucky out of a Kingpin with a dam that made 26,396 of milk and 1025 of fat in 365 days as a junior four-year old. She also had a daughter by Elvation that made 19,510 pounds of milk and 838 of fat in 305 days as a two year old.

Grace is no "flash in the pan". She's had three excellent records; her dam was a high producer and her first daughter is doing nearly as well as she did as a 2 year old. Of course, she's not the only milker in the sheypul herd of 55 cows that last year averaged 19,119 pounds of milk and 748 pounds of fat. Included during the past three years were six cows that made over 1,000 pounds of fat in 305 days.

CHORE-TIME

FEED STORAGE AND FLEX AUGER DELIVERY SYSTEM

The Original Flex Auger Delivering Up To 2400 lbs. Per Hr. OR
The NEW "Hi-C" Flex Auger Delivering Up To 6000 lbs. Per Hr.

Most sizes of bins and flex auger systems in stock.

Swine Systems...

Both rugged and versatile, the Flex-Auger System easily adapts to most feeding operations. The Chore-Time centerless auger delivers feed from bulk bin to all feeders located throughout the house. Much of the labor required with other methods is eliminated. The Y outlet drop assembly (illustrated above) or single units can be installed in most any position desired. Feed level is easily controlled by adjusting the height of the drop.
