

\$7800 in scholarships available through 4-H

CHICAGO, Ill. - Cultural college enrollment increased 75 per cent in the six-year period from 1969 to 1975. Many ag school deans attribute the enrollment increase to young people's interest in world food production, a growing interest in ecology, and the do-nature movement which began in the last 1960s. Present or former 4-H members who plan to major

in agriculture or related fields may be eligible for college scholarships offered by private-sector donors this year through National 4-H Council. 4-H scholarships range in value from \$600 to \$1000. They are awarded on the basis of interest in attending college, 4-H background, grades, leadership ability and financial need. DeKalb AgResearch, Inc. offers four \$800 scholarships

to young men and women who plan to enroll for their junior year of college in the Fall of 1977, and who expect to major in some phase of agribusiness. Recipients also will spend two days studying operations at the company's research headquarters in DeKalb, Ill. Alpha Gamma Rho Educational Foundation provides one \$600 scholarship to a 4-H member planning to enroll as an agricultural college freshman in the Fall of 1977.

Two scholarships of \$1000 each are donated by Allied Mills, Inc. These go to current or former 4-H members who will be juniors majoring in animal science at a college or university this fall.

Champion Valley Farms, Inc., Recipe Division, provides two Lassie 4-H Veterinary Medicine scholarships of \$1000 each to former 4-H members currently enrolled in a college of veterinary medicine.

4-H scholarships are a means of recognizing outstanding 4-H work and furthering the college education of present or former 4-H'ers. Recipients are chosen by the Cooperative Extension Service.

Full information on scholarships and special application forms are available from the state 4-H office.
