

Earl Wenger and David Fortna are greeted in the Nation's capital by FFA National Vice President Rick McDaniel, right of Nevada, Ohio.

## Two Norlebo FFA'ers visit D.C.

ALEXANDRIA, Va. - Two FFA members from Northern Lebanon High School - David Fortna and Earl Wenger - recently attended the National FFA Leadership Conference in Washington at the National FFA Center.

The FFA Conference program is designed to improve leadership skills, develop an understanding of the national heritage, and prepare FFA members for more effective leadership roles in their chapter and community. The Conference is also a forum for the exchange of FFA Chapter activity ideas among members from across the nation.

Besides the training sessions, the 1977 program includes visits to Mt. Vernon Plantation, the National Archives, Smithsonian Institution, Arlington National Cemetery, and several other historic monuments and memorials in and around the Capital.

A highlight of the Conference was a Thursday morning visit to the office of Congressman Alan Ertle of the 17th District. Later

participants attended a Capitol Hill luncheon featuring a question and answer period with Congressmen, and Washington leaders in business and industry.

Mr. and Mrs. Robert C. Wenger of Annville R2. Fortna, 17, is the son of Mr. and Mrs. Richard D. Fortna of Jonestown. Their vocational agriculture instructor is J. Ray Bickel.

## WHAT'S NEW

### SILO UNLOADER

Badger Northland Inc., Kaukauna, Wis. announces the introduction of the Pow-R-Trac 2, a new generation of ring-drive silo unloaders. The Pow-R-Trac 2 can be raised high into the silo roof during silo filling, permitting maximum use of silo storage capacity. Unloading can begin immediately after filling, right through the dormer, without special hangers or adjustments.

The Pow-R-Trac 2 is suspended from three points on a tripod to three points on the drive ring, to ensure stability and level operation of the silo unloader. Standard equipment knives run the full length of the 10 foot

auger, to cut through hard-packed haylage or silage. Double flighting and knives on the auger end near the wall, in combination with a separate, adjustable digger wheel, shave silo walls clean of frozen haylage or silage.

The Pow-R-Trac 2 is available for silo diameters from 14 feet to 24 feet.

### 80 KW PTO ALTERNATOR

A new 80,000-watt PTO alternator is announced by Onan Division, Onan Corporation, Minneapolis, Minn. Onan - a manufacturer of electric generating equipment - is offering this new Tractor-Drive PTO Alternator (Model 80. OUR-5-DG) for use by farmers, ranchers, dairymen, poultry raisers, rural electric utilities, creameries and others as a source of low-cost, dependable electric power for emergency use when storms or accidents interrupt commercial service. The unit can be operated continuously during any power outage, with variable or intermittent loads up to the full rating of the alternator.

Incorporating modern efficient electrical design, Onan's new Tractor-Drive

Alternator, Model 80. OUR delivers 80,000 watts (100.0kVA- 0.8PF) of 60Hz, three-phase, 120-240 volt, four-wire (12-lead reconnectible) electric power for all types of typical farm use. The 100 per cent brushless design, unique solid state voltage regulator and heavy duty control elements throughout make this 80kW PTO alternator a singularly efficient source of emergency electric power.

For further information write to; Onan Division, Onan Corporation, 1400 73rd Avenue N.E., Minneapolis, Minn. 55432.

If cows could talk they'd ask for

## ALFALFAS

WL 311—1976 State Grand Champion Award

Resistant to Anthracnose and Bacterial Wilt

WL 318—Resistant to phytophthora root rot

High Yielding—  
Excellent Stand Persistence

Rapid growing — Dark green color — fine stems

Excellent seedling vigor and stand establishment

Developed by Waterman — Loomis Co., specialized alfalfa breeders.

	Tons/4 yrs.	Tons/yr. Average
WL219	21.97	5.49
WL311	21.93	5.48

## Barley harvest

[Continued from Page 1]

concluded. Yields are very good, the quality is "extra good" in the words of an Elizabethtown man, and moisture is ranging between 13 and 15 per cent.

The only shortcoming on this year's barley harvest seems to be the length of the straw. There isn't much of it.

According to Clair Frey, custom combine operator from Lititz, most farmers are holding on to their barley crop. Of the 12 farmers he has combined for so far this year, all but one have kept the grain. Barley prices in Lancaster County are ranging from \$1.60 to \$1.85 per bushel, with the average price falling in at \$1.73, and a majority of quotes at \$1.70.

The main concern now, as the season progresses is - as always - the weather. If the rains keep coming, it'll be bad news for grain farmers.

## SCHAEFFERS WOOD PRODUCTS

Manufacturers Of:

- \* FEEDER WAGONS
- \* FEED BUNKERS Any Size
- \* LOADING CHUTES
- \* FLAT WAGONS
- \* FEEDER RACKS - SKID TYPE Any Size, Cattle & Horse
- \* HAY WAGONS

We Custom Build Anything Any Size To Suit Your Needs Out Of Wood. Also, Ask About Our Repair Service!

## 6-hp Riding Mower

The John Deere 66 Rider features sleek, contoured styling for a good sound reason. Enclosing the engine not only enhances design but also results in quieter operation. A 5-speed transmission offers a travel speed for any mowing job. Set mower height from 1 to 4 inches, cut a 30-inch swath.

## New High-Pressure Washer

Speed dozens of around-the-home cleaning chores with this compact new washer. Just hook it up to a cold water supply, plug it in, and you're ready to start cleaning. A dependable pump generates 500-550 psi of quick-cleaning nozzle pressure. An accurate proportioning system meters detergent or other chemicals into the water supply at an economical 40:1 ratio.
