

GET SOME SUN...

xxx  
When cooking chicken on the grill, if you don't plan to serve it immediately, remove and wrap in aluminum foil or place in an insulated container. The National Broiler Council notes that chicken will dry out rapidly and lose some of its natural tenderness and flavor if it is left on the fire after it is done.

**For Grain Storage**

**\$13,960**

Capacity 6450 Bushels at 25% moisture

If you're still drying this...

you're already paying for this.

Save your fuel and money, too. SEALSTOR® it.

Over the long haul the cost of fuel can go only one way UP. And once fuel is used, it's used up. Period. It's like burning money.

A Sealstor is as close to being permanent as any structure you can erect. And that's only the start of your savings.

With Sealstor, you harvest grain early, at about 30% moisture, when it's at its peak in bushels and nutri-

tional value. Then, the "wet" grain goes directly into your oxygen limiting Sealstor.

The Sealstor system cuts handling time and costs, reduces field and storage losses, beats the weather and produces a mildly fermented feed that is easier to digest, more palatable, more nutritional. You get more meat or milk per acre. And you stop using costly fuel for drying grain Now and forever.

Sealstor products are manufactured by Southwestern Porcelain Inc. P.O. Box 8 Sand Springs, Oklahoma 74063

**\$11.<sup>38</sup> milk price**  
**announced**

ALEXANDRIA, Va. - Middle Atlantic Order Market Administrator Joseph D. Shine has announced a Class I milk price of \$11.38 per hundredweight for August 1977. Shine said that the price is down two cents from July and is 28 cents higher than the August 1976 fluid milk price. Order No. 4 prices are announced for milk testing 3.5 per cent butterfat, f.o.b. plants located within 55 miles of Philadelphia, Pa. and also within 75 miles from the nearer of Washington, D.C. or Baltimore, Md. There is also a 6-cent direct-delivery differential applicable to producer milk received at

plants located within 55 miles of Philadelphia.

Shine also announced a Class II milk price of \$8.51 per hundredweight for June 1977 and a butterfat differential of 11.6 cents.

These class prices are based on the June 1977 Minnesota - Wisconsin manufacturing milk price of \$8.60 per hundredweight adjusted to a 3.5 per cent butterfat content.

The USDA reported that the wholesale price of Grade A butter at Chicago for June was \$1.0071 per pound and the nonfat dry milk price was \$.6768 per pound f.o.b. plants in the Chicago area.
