

Ephrata's Kerry-Boyd finished his last year as a participant of the Lancaster County 4-H Dairy Round-up in true form. He's shown with his grand champion Brown Swiss, a 4½ year old daughter of V.B. Royal Flush Pavanne. This 7-month old Guel championship ribbon w

Ten-year old Patrick Bukowski, son of Mr. and Mrs. Robert Bukowski, Mount Joy R1, purchased this little Jersey calf with money he earned from the sale of rabbits and sheep. The stylish calf was chosen grand champion of the Jersey show. Young Patrick comes from a 5-acre farm where just about every animal is a 4-H project.

Lowell Brubaker, brother of this year's Lancaster County dairy princess, Twila Brubaker, took a few honors at this year's 4-H Dairy Round-up. He was chosen top showman among Holstein exhibitors, and later over all breeds. Lowell is the son of Mr. and Mrs. Harold Brubaker, Manheim R2.

Champions

[Continued from Page 18]

Shertzer, Lancaster; 8. Alice Stauffer, Ephrata; 9. Randy Houser, Lampeter; 10. Connie Kreider, Lancaster. Thirteen junior calves were exhibited.

Intermediate Calf

1. "Solanco-Acres Elevation Jo," sired by

Round Oak Rag Apple Elevation, owned and shown by Linda Akers, Quarryville. 2. Larry Groff, Kinzer; 3. Debra Hershberger, Quarryville; 4. Sheila Frey, Willow Street; 5. Roy Stoner, Quarryville; 6. Philip Kreider, Lancaster; 7. John

Kreider, Lancaster were shown.

Senior Cal

1. "August-Hill Leseyla," sired by Farm Rockman owned and shown Keener of Elizabeth Philip Crouse, St Susan Marie Quarryville. The four entries.

Junior Yearling

1. "Zion Meado Mattie," a daughter of Paclamar Astroi shown by Doug He

An idea whose time has come

We asked farmers all across North America what they wanted most in a new 2-wheel drive tractor. Then, we designed a tractor to meet those specifications. The result is a new 2-wheel drive with greater horsepower, adaptability, and reliability than ever before—a tractor that is easy to operate and easy to service, with an abundance of built-in operator comfort features.

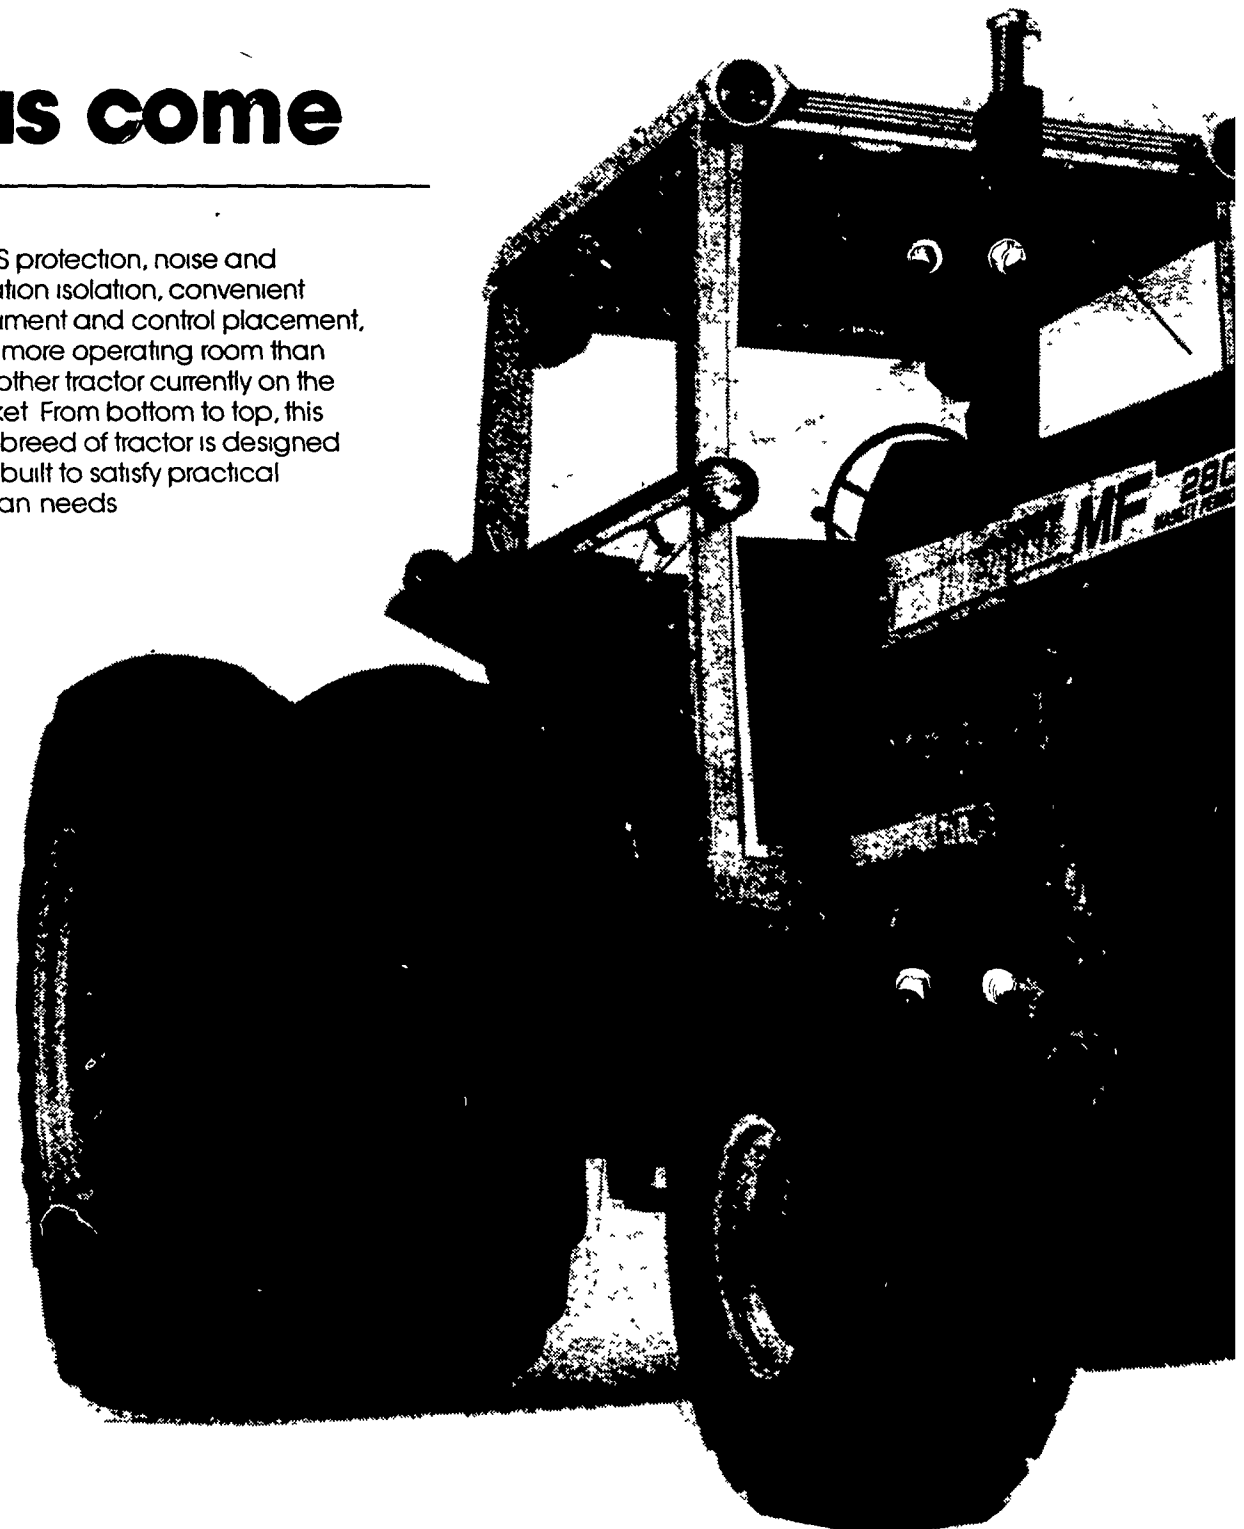

Here is an engineering innovation whose very conception signals the beginning of a bright new era in 2-wheel drive tractor design. Introducing the MF 2800, a tractor designed specifically to

accommodate human needs while it delivers the diesel horsepower and 2-wheel drive adaptability most farmers want.

Power and adaptability. At 190* PTO hp, the MF 2800 is currently the largest horsepower 2-wheel drive tractor manufactured in the world, and that power is generated by a reliable PERKINS AT8 640 diesel engine. Adaptability features include a choice of standard 8-speed manual transmission or the new MF 24-speed transmission. There is also a choice of standard length axle, long axle, or the extra long axle option that lets you straddle up to four 40-inch rows. The MF 2800 is also available as a western model, with heavy-duty fixed tread front axle and wide swing roller drawbar.

Comfort and safety. But the real news in 2-wheel drive tractor design is operator comfort and safety, and the new MF cab has it all. It offers 7,336 sq. inches of window area for unobstructed visibility in all directions, complete

ROPS protection, noise and vibration isolation, convenient instrument and control placement, and more operating room than any other tractor currently on the market. From bottom to top, this new breed of tractor is designed and built to satisfy practical human needs.
