

IM-PRUV-ALL

To save more of the nutrients in corn silage, use **IM-PRUV-ALL** silage compound.

ORDER YOUR **IM-PRUV-ALL** SILAGE COMPOUNDS NOW.

University studies have shown **IM-PRUV-ALL** silage compounds to be a non-chemical, but natural mineral combination, specially blended to feed the living lactic bacteria present in plant cells. When **IM-PRUV-ALL** silage compounds are added to the crops, while being ensilaged, the bacteria will have proper food balance to make a rapid and more favorable fermentation.

WHAT DOES A RAPID, LACTIC FERMENTATION MEAN?

- shorter fermentation time
- less heat damage
- less nutrient loss
- more palatability
- higher T.D.N.
- decreased nitrate levels
- controlled pH level (for better environment of stomach bacteria)

Farm wife

[Continued from Page 50]
 each side of his black-haired cranium, forming the shape of the letter "T." Trouble starts with "T," and this beast looks like a bundle of it.

After a few perfunctory chases around the pen, just for practice, he found himself hemmed in the corner. Both paths of escape were blocked, one by the farmer, the other by yours truly. A split-second character analysis was rendered and the steer directed his wrath at the obvious coward - me. I found the fence; and Mr. Steer found his freedom. Figuring that five captured out of six wasn't bad, we trucked back over the hill, laying plans to spit-and-polish the muddy, hairy, wild-eyed adolescent cows.

Retreating to the comparative safety of the kitchen, I left the unloading problem for the boss to solve. By this time, the heifers had fallen in love with our old truck and refused to walk down the gate.

Shortly thereafter, Patty summoned me from the house to observe how the uncooperative girls had graduated from Lesson One in leading.

Somehow, I suspect that we aren't going to win many showmanship points when we drag a senior yearling into the ring behind the International.

Sweet smell of silage success

When something goes wrong in your silo you can smell it. But when you hedge your silage investment with silaGain all you'll smell is the sweet smell of silage success. Any silo any forage every time. Here's proof from university research:

CORN SILAGE		
Item	Control	silaGain
Energy Preservation	75%	88%
Energy Digestion	67%	70%
Protein Preservation	71%	94%
Protein Digestion	55%	59%
NFE Preservation	67%	80%
NFE Digestion	72%	74%

WHEAT SILAGE		
Item	Control	silaGain
