

Keep more TDN in your high moisture ear corn and shelled corn with Beacon Silage Pre-Serv.*

Research has shown that high moisture ear corn and shelled corn treated with Pre-Serv retains more nutrients and better palatability than untreated corn, and protects the corn from damage usually encountered in storage. That means more milk — more profit — from your corn crop. In addition, Pre-Serv reduces excessive heating and oxidation, to give you less caking and bridging in automatic unloading equipment. So you'll save time as well as money.

of the champion animals are daughters of Brooknook Momentos Starfire.

Gary Mase scored easy victories in the Brown Swiss ring, taking a first-place with each of his three entries.

In the Ayrshire show it was Kevin Reinhold who went all the way. Reinhold, 18, from Annville R3, showed an intermediate calf sired by Tshudy's Fashion Melinda's Gem.

Brenda and Diane Maulfair with their champion Ayrshires.

★ HERBICIDES ★ INSECTICIDES ★ FUNGICIDES TALLMAN AERIAL SPRAYING

★ SEEDING ★ DUSTING ★ FERTILIZING

1. Aerial application now available for Pennsylvania farmers to use in their regular crop culture program.
2. Avoid soil compaction, mechanical crop damage and spread of disease by eliminating ground equipment.
3. Make the application on time and at lower cost.

WE HAVE:

- ★ Experienced pilot with Pa. farm background, and Penn State Degree in Agriculture.
- ★ Modern high performance aircraft.
- ★ Special mobile mixing and loading equipment.
- ★ Many satisfied customers and proven results under our Pennsylvania conditions.
- ★ High or low rates of application to meet your needs.
