*Morrison's Analysis

Notice that in almost every nutrient specification, Stretch is superior to roughages or other roughage substitutes.

FEEDING

Stretch can be used in many ways. A thumb rule is that 1 lb. Stretch replaces 1½ lbs. hay, 2½ lbs. hay crop silage, 3 lbs. corn silage.

Stretch can replace oats in a grist ration. Being a pellet, it aids in flowability in bulk handling facilities. Stretch contains molasses, thereby increasing the molasses content of the total grist without adding to "stickiness".

BEACON STRETCH IS A PELLET - Available in bag or bulk.
