

**“For the serious dairyman who’s shooting for more tons of silage, I think Furadan is a good solution. Because it controls those insects that cut yields in this area.”**

Chuck Dodd, Warren County, Pennsylvania

**“Insect problems can cut silage yields in half in this area. Some guys think I’ve got a different type of fertilizer or something, but the only difference is Furadan.”**

Donald Zittel, Erie County, New York

**“I figure that where I didn’t use Furadan, I lost 10 to 20% of my tonnage—I saw goosenecked stalks, rootworm and wire-worm damage.”**

Allen Mammoser, Erie County, New York
