

**“We ran a test that convinced us how well Furadan works. We applied Furadan to three-fourths of a field. And the difference was 1,400 pounds of ground ear corn per acre.”** Larry Rater, Chautauqua County, New York

Why do top-notch dairymen use Furadan® insecticide-nematicide for their corn?

Because they've seen tons of silage lost from insects and nematodes.

And they know Furadan controls more pests than any other corn soil insecticide.

Instead of convincing you with our tests, we asked Furadan users to talk about their battle against damaging corn insects.

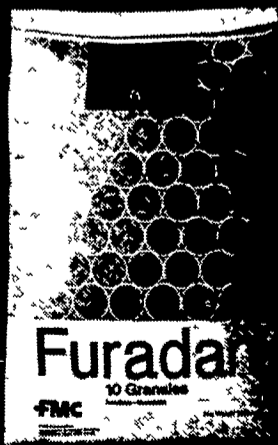

And they said it better than we could.

If you're not sure how Furadan fits into your operation, talk to a dairyman who's tried it.

Or call your farm chemical supplier. He'll explain how Furadan stops more pests. And saves more corn. FMC Corporation, Agricultural Chemical Group, 2000 Market Street, Philadelphia, PA 19103.

**Stop. All pesticides can be harmful to health and the environment if misused. Read the label carefully and use only as directed.**
