Figure it for yourself.

You get them on feed at half the cost with our pre-starter.

The difference is dramatic. You save half the cost of a commercial pre-starter when you build your own with Vigortone's Creep Wean No. 3.

Your figures will prove it.

First, you save because you use feedstuffs grown on your own farm; no need to purchase someone else's grain.

Next, you fortify these feedstuffs with Vigortone's Creep Wean Pre-Mix No. 3, a potent combination of all the vitamins, minerals and amino acids needed for optimum nutrition.

Finally, you do the grinding and mixing yourself - FRESH - adding the right amount of soybean meal for proper protein levels. And if a health problem does arise, you can medicate immediately.

There you have it: a highly fortified pre-starter that saves you half the cost of a commercial brand.

Figure on further savings - all the way to market.

Vigortone swine feeding programs offer cost savings in your starter, growing and finishing rations as well.

You'll save substantially over commercial starters with Vigortone 16% starter using your own grain - no fillers. And Vigortone's corn-soy growing and finishing programs combine economy and quick-to-market-weight nutrition.

Now is the time to compare.

See your Vigortone dealer soon. He's ready to compare the performance of Vigortone's low-cost swine feeding programs with any other you name.
