Lehigh County 4-H Achievement Night

Master 4-H'ers want you to aim high

By LAUREL SCHAEFFER Staff Correspondent

SEIPSTOWN - Lehigh County 4-H'ers honored their own Thursday, February 23 when they held their annual Achievement Night at the Seipstown Grange Hall. Highlighting the special

Montgomery County 4-Her and winner of The Presidential Award.

Jeff and five others received this rare honor at the National 4-H Congress held in Chicago last year. He addressed the group, urging

event was Jeff C 11g, everyone to set a goal for themselves and work to `achieve it.

> Jeff's goal was to become a delegate to the National 4-H Congress, which he said was a long hard climb up "the ladder" but he achieved his goal, and more. "The top

of my ladder reached the clouds," he told the 4-H'ers. To do this, he continued, involved a lot of work and many blue forms.

Jeff encouraged the 4-H'ers to fill out the forms and explained that once they

to be done was adding on years ago," he explained. each year. "You don't have rememer everything

were started all that needed you've done a couple of (Turn to Page 43)

Top 4-H'ers who were recognized at Lehigh County's 4-H Achievement Night were, left to right: Sarah Fretz, state winner in sheep and delegate to National 4-H Congress; Sandy Burns, outstanding 4-H good and nutrition 4-H'er; Mark

Lichtenwalner, Keystone winner in agriculture; Susan Young, state winner in the National Poster Contest; and guest of honor, Jeff Craig, Montgomery County 4-H'er and winner of the Presidential Award.

Why should you use any of these AMS/OIL **Synthetic Lubricants** that will cost you about 4 times more than a premium grade petoleum **lubricant?**

COMPRESSOR OILS

Oils for both rotary and reciprocating compressors run clean so air is clean — no carbon builds up to block exhaust valves or create a fire hazard in exhaust lines. Oils cut costs maintenance and downtime because they last eight times longer than petroleum oils plus reduce wear

HYDRAULIC FLUID

Stable viscosity means oil flows freely at low temperatures — no sluggish strain on hydraulic systems Oil runs naturally cooler and cleaner in system — hydraulic systems deliver top performance. Possesses exceptional

anti wear and anti rust

GEAR LUBE uper slippery in sub-zero operation yet doesn't thin at high temperatures. Low coefficient of friction reduces friction drag and heat generation from gear boxes and differentials. Substantial tuel economy increases reported

2-CYCLE OIL
Mixes at a ratio of 100 t to cool
and lubricate all 2 cycle engines
Burns and exhausts cleanly leaving practically no carbon or ash residue in combustion chamber

on pistons exhaust ports cylinder heads or spark plugs. Unsurpassed for lighting 2 cycle engine heat

GREASE

MULTI-PURPOSE

grease ever -- ape

All weather extreme pressure anti-wear high load carrying grease protects from 50 F up to 350°F. Resists destructive en ulsifica on caused by water alustress to wash out even unde extreme moisture conditions. The most nearly extent.

most nearly

fleet of trucks, your equipment will run better, longer, cheaper with less maintenance. When you add it all up you will find you can't afford not to use AMS/OIL Lubricants! DIESEL OIL

API classified SE/CC/CD Readily dissipates heat from engine parts plus naturally runs cooler. Keeps troublescene carbon from forming around pistons and rings. With proper filtration normally lasts three times longer than conventional. lasts three times longer than conventional diesel engine oils Diesol Oil FARM TRACTOR HYDRAULIC!

TRANSMISSION OIL
For tractors and
the many hydraulic devices tha operate in conjunction with them. Lubricates tractor transmission differential and final drive gears
plus acts as the power steering, power brakes power take off and implement drive

ENGINE OIL Rated SAE 10W-40 and classified API SE/CC Provides 25 000 mile operation between oil drains Fuel economy increases reported as high as 25% Pour point of 60°F means fast sub zero
