THE NEW IRON HORSES

MORE HORSES MORE IRON

More strength throughout from more iron within

The drawing above gives you a good idea of the extent of change inside the NEW IRON HORSE tractors from John Deere. The dark area represents areas of redesign or revision.

As you can see, practically everything but the paint is new. Stop in and we'll "walk you through" the iron story on the tractor size of your choice: 90-hp 4040, 110-hp 4240, 130-hp 4440, 155-hp 4640, or 180-hp 4840. We've got all the facts on THE NEW IRON HORSES—the tractors with more horses and more iron.

Now grind and mix hog rations fast—even with high-moisture corn

Grind your livestock feed when you want to, not when a custom grinder can get to you. And prepare thoroughly mixed rations—all with a 95-bu John Deere Grinder/Mixer or its bigger brother, the 130-bu model 750. See us for details and prices of these two modern feedmakers.
