SEALSTOR THE NEW BLUE

'I bought SEALSTOR' because I got more for my money"

FOR HOG FEEDERS...

"We looked at both systems, and bought Spaistor. It has many plus features, at no extra cost.

When you re talking about sealed storage you re talking about a building crew. No structure is any better than the way it's built, regardless of the name on it. The Sealstor crew does a good job of building the sealstor crew.

FOR BEEF FEEDERS

"Sealstor is the least expensive sealed storage there is for the man that wants to feed his own corn.

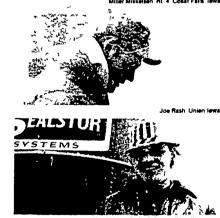

You can't help but take feed value out when you dry corn. When you harvest it wet, and have a Sealstor, there's nothing to stop you until the structure is full."

FOR MEN WHO FEED BOTH....

"I looked at both sealed systems . I bought Sealstor because I got more for my money."

FOR DAIRYMEN...

"The fiberglass roof makes a big difference... it insulates better than steel, and we get more storage because the breather bags are up out of the way. The feed? Well our test is up 2 points and we save half a day a week by not having to grind."

FOR YOU.

Check out a Sealstor System before you get the checkbook out.
