

Corn post-emergence When it's down to:

Which are you using?

For post-emergence weed control in corn . . . what if 2,4-D doesn't work? Like on smartweed.

Banvel herbicide, used alone or tank-mixed with 2,4-D, controls more broadleaf weeds than 2,4-D used alone.

So think Banvel:

... When you first see smartweed, velvetleaf, ragweed, cocklebur, pigweed, sunflower, morningglory, lambsquarters, Canada thistle seedlings.

... When you're planning to rotate to wheat or oats in the fall or soybeans next spring . . . because BANVEL DOES NOT CARRY OVER.

Your ag chemicals dealer has your supply. Any questions? Call free of charge on the Velsicol Herbicide Hot Line: 800-621-4129 (Illinois callers: 800-972-8381).

Before using any pesticide, read the label.
