

# Corn post-emergence When it's down to:

## Which are you using?

For post-emergence weed control in corn . . . what if 2,4-D doesn't work? Like on smartweed.

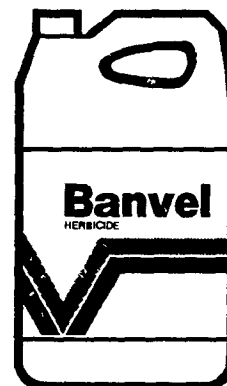

Banvel herbicide, used alone or tank-mixed with 2,4-D, controls more broadleaf weeds than 2,4-D used alone.

So think Banvel:

. . . When you first see smartweed, velvetleaf, ragweed, cocklebur, pigweed, sunflower, morningglory, lambsquarters, Canada thistle seedlings.

. . . When you're planning to rotate to wheat or oats in the fall or soybeans next spring . . . because BANVEL DOES NOT CARRY OVER.

Your ag chemicals dealer has your supply. Any questions? Call free of charge on the Velsicol Herbicide Hot Line: 800-621-4129 (Illinois callers: 800-972-8381).

Before using any pesticide, read the label.
