## THE REVERSE CAGE

EVERYBODY'S TALKED ABOUT IT.

A. R. WOOD BUILT IT.

The 4-Deck Reverse Cage Slant Back System From A.R. WOOD Is Built To Deliver EXTRA NET PROFIT: UP TO 50° EXTRA NET PER HEN PER YEAR!

Research has confirmed that less competition at the feed trough is one key to more eggs and more net profit. With proper management, The Northco® 4-Deck Reverse Cage Slant Back System from A.R. Wood will deliver extra net profit from the day it's installed. Here's why: The extra equipment costs are offset by savings in building costs (in new construction). 

There's no increase in operating cost, no extra feed. ■ The Reverse Cage delivers fewer cracked eggs. 

Slant back design eliminates the need for dropping boards and dropping board scrapers. ■ The Northco® Core Auger mixes the feed as it moves, to prevent feed separation. There's only a 2" setback per tier, so there's easy access to all levels.
