

Increase the check your milking string delivers with **WAYNE 38% DARI-BLEN**

With Wayne Dari-Blen 38 percent supplement, you get protein from as many as eight different sources. As one source is used up the next carries on, like a relay team. Result: Dari-Blen feeding has boosted production in many herds as much as 20%.

Your milking string can deliver a bigger check - with the help of **Wayne 38% Dari-Blen**.

To make milk, a cow needs protein. After each feeding, she keeps working on milk production only as long as the nutrients keep working for her. And protein is the key.

Talk to one of the Wayne Feed dealers listed below about increasing the check your milking string delivers. Ask him too, about Wayne Min-a-Lyte, and how it can be used in a custom formulated mineral mix for forage feeding programs.
