

...an egg production system

Chore-Time has taken years of experience, combined it with the future equipment needs of the egg production industry and developed the Pyramid™. Probably the single greatest feature of the Pyramid™ is its cage design, but the Pyramid™ is more than just conventional equipment with a shallow cage. Actually there is very little that is conventional about the Chore-Time Pyramid™ Cage Layer System. Take a closer look at what goes into the make-up of this unique system...
