Threshermen hold festivities on Wednesday

KINZERS -- "The threshers are comin'!"

Seventy years ago that cry heralded a day of excitement and hard work on farms all across America as the threshers rolled in with their huge, huffing steam traction engines to "thrash" the wheat crop.

Those days when the smoke-belching, steam-spitting behemoths were the greatest things on American farms since steel plowshares will live again when the 30th annual Old Threshermen's Reunion gets underway Wednesday on the grounds of the Rough and Tumble Engineers Historical Association, here.

The reunion runs Aug. 6-19 from 10 a.m. to 9 p.m. daily. The reunion will feature at least 20 of the old steam engines, performing a variety of tasks. The steam engines, some of which date to before the turn of the century, will be used to thresh grain, crush stone and run a sawmill and a shingle mill.

Daily at 1:30 p.m. there will be a Pageant of Threshing, demonstrating various methods of threshing grain. At 4 p.m. daily there will be a grand parade of the old engines.

In addition to the steam engines the reunion will feature old tractors, antique cars, antique wagons and old-time fire engines. There will be wagon and train rides

Judy Zimmerman, and Robert Hess, placed third.

Top flower judge in the state was Shirley Nolt, who combined with team mate Yvonne Eshelman for a third place team slot.

In clothing and textiles, the team, consisting of Elaine Good, Nancy Mays, June Grube and Susan Martin placed second. Miss Grube was high individual.

Members of the winning Horse Bowl group were Jenny Weber, Daphne Immel, Cindy Wenger, and Lashon Bussell.

The poultry team consisted of Anita and Scott Augsburger, Paul Aument, and Kathy Groff.

Rounding out the horticulture team, which led by Miss Risser, were Matha Trumbauer, Guy Eshelman, and James Stauffer.

LINCOMIX[®] THE HEAVYWEIGHT

The feed additive for the treatment and control of bloody scours (swine dysentery) from birth to market.

A number of feed additives for bloody scours are on the market. But until today, few could offer such high performance and so few feeding restrictions as Lincomix.

On-farm trials have demonstrated the efficacy of Lincomix. By controlling bloody scours, Lincomix has proven its superior performance in maintaining rate of gain and feed efficiency while reducing death losses.

And Lincomix can be fed in any ration, from starter to finishing — just withdraw six days prior to slaughter. It's available in both complete feeds and supplements for on-farm mixing.

Lincomix — THE HEAVYWEIGHT feed additive for the treatment and control of bloody scours.

Talk to us today about getting Lincomix in your hog rations!

Look for Lincomycin on the feed tag.
