

Ag Progress

(Continued from Page 1)

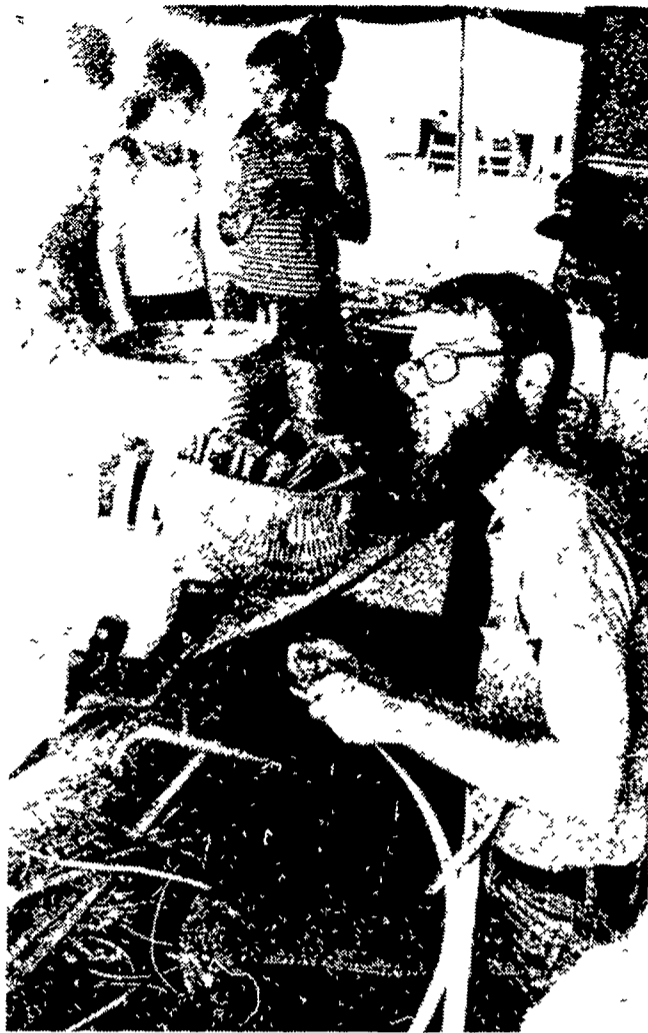

First-day highlights included the Hay Crop Silage Show, youth and family living activities, tours of research plots, and numerous field machinery demonstrations.

A "big hit" for spectators was Elro, an electronic robot, who walked around the midway area, stopping people, asking questions and popping jokes. One favorite pastime of Elro was finding a lady to take to a disco.

Exhibits and demonstrations centered on the services provided by the Penn State College of Agriculture in extending educational opportunities to all residents of the state.

Covered were home and small building construction to conserve energy, safe installation of wood burning stoves, firewood selection, drying foods, the metric

(Turn to Page 16)

If farm equipment wasn't your game, but crafts were, there was plenty of that at Ag Progress too.

Woodcarving with a chainsaw was featured for the second consecutive year at the 1978 Ag Progress Days.

For professional lawn care: **Cut-n-Trim**

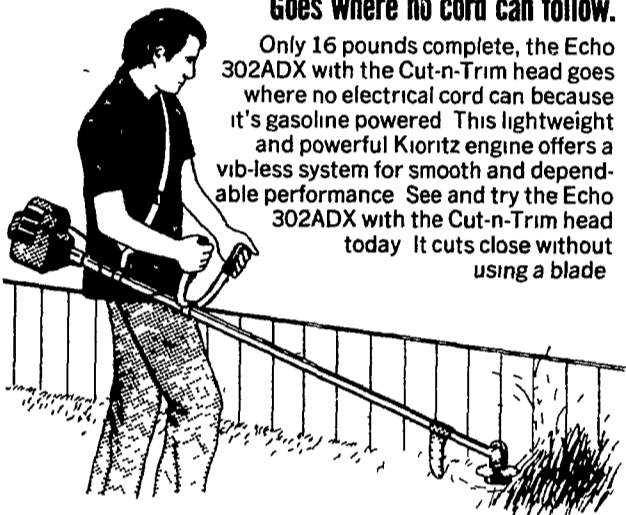

The Echo 302ADX with a Cut-n-Trim head.

Trims close without using blades.

The Echo 302ADX is now available with a Cut-n-Trim head for close trimming where blades will not do. Around fences, trees, and walls where weeds and tall grass accumulate, the Echo 302ADX with the Cut-n-Trim head cuts safely and easily with its flexible cutting line.

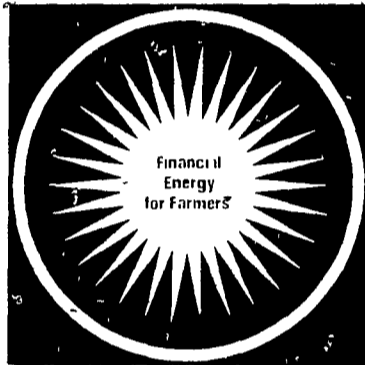

Goes where no cord can follow.

Only 16 pounds complete, the Echo 302ADX with the Cut-n-Trim head goes where no electrical cord can because it's gasoline powered. This lightweight and powerful Kioritz engine offers a vib-less system for smooth and dependable performance. See and try the Echo 302ADX with the Cut-n-Trim head today. It cuts close without using a blade.

Klussendorf presentation moved

LOUISVILLE, Ky. - Show officials at The North American International Livestock Exposition announced recently that the Klussendorf Award will be presented at the Louisville-based show for the first time this year. The Klussendorf Award is one of the most coveted honors annually bestowed on a dairy representative. The Klussendorf Award is made to the cattlemen in any of the dairy breeds who excels in endeavor, ability, and sportsmanship. Determination of the winner is made under the direction of the Klussendorf Memorial Club.

BACK TO NATURE IS THE ANSWER

For Pestilence and Disease

No truer words were ever spoken. Big healthy extra sweet cantaloupes with no spray. Likewise for a host of other vegetables and alfalfa. FERTRELL fertilizer, minerals and bacteria products which are according to nature, is what does it. You can't fool nature. AGRISPON (a bacteria product) both prevents the dreaded Aflatoxin corn disease, and produces crops same or more than fertilizer for only \$6.50 an acre.

I (Eli Stoltzfus) have pioneered, used, advertized and sold bacteria products for 8 years to try to help the farmers. Now I find new and better products - one called BX which builds soil analysis substantially while the crop is growing, increasing corn silage 8 ton per acre in a test plot with \$15 less expenditure. Diseased and otherwise hopeless asparagus received in one year to the best crop ever.

MINERAL 72 has 72 elements and is highly recommended by experts for soil and feed. Our initial shipment is only \$125 per ton introductory price. Order quick before it is sold.

All these products should be applied in the fall for conditioning the soil for next year. That is the name of our game "conditioning." Chronic human diseases are not cured overnight either. Give the bacteria time to raise families. They increase humus rapidly and the soil softens like a sponge and velvet. Why don't you give it a try? We can visit you or ship the material.

TRITICALE SEED A GOOD CROSS BETWEEN WHEAT & RYE, BETTER THAN EITHER PARENT.

- Higher Protein
- Higher Yields
- More Feed Value
- Very Vigorous
- Excellent Livestock Feed & Green Chop.
