A Grain Systems, Inc bin is the basic component for on-farm storage under the most demanding conditions. GSI manufactures a complete line of on-farm storage bins and accessories for total grain control. GSI heavy corrugated steel panels save time and labor in construction through efficient design and manufacturing at our own modern facility. With capacities ranging from 1,000 to 44,000 bushels and 15' to 48' diameters, GSI bins fill all your storage needs. GSI's high quality steel gives GSI bins 40,000 lbs PSI tensile strength. Complete drying equipment is also available to meet your requirements. Whether for temporary storage until harvest is completed or in combination with full drying equipment, GSI grain bins form the core of a total long term storage system.
