

4-H district colored breed champions chosen

HARRISBURG — At the 11th annual South Central District 4-H Dairy Show, many winners were picked in the colored breeds division of the show. Held August 29 at the Farm Show Building, Champions were chosen throughout the morning's classes.

In the Ayrshire division, the senior champion, Karen D. Schmuck, Peach Bottom R2, was named the grand champion of that breed. She showed an animal in the three and four year old class, Pineland Pride's Buttons, and this is her third year to

be chosen champion at the District show.

Her sister, Sandra Lee Schmuck, showed the junior champion, Cove Creek Victory's Vel, a senior yearling. It was named the reserve champion of the breed.

For the second year in a row, David E. Feidt, Millersburg R1, took his Brown Swiss Rainy Design Rochele, to be named grand champion in the Brown Swiss breed. The animal competed in the three and four year old class. David, the 13 year old son of Mr. and

Mrs Eugene Feidt, bred the animal himself.

The reserve champion in the Brown Swiss also came from the senior division, with Katherine Feidt, the 17 year old sister of David, taking that prize with her aged cow, High Spruce Beautician Nora.

Figure it for yourself.

You save money, day after day, with corn-soy and Vigortone.

Want to save money on your swine rations? When you take charge of ration content and quality, you start saving from the very first day.

To take charge of ration content, buy only what you don't grow on your own farm. Then, grind and mix the rations yourself — fresh — from pre-starter through finishing. You'll never have to worry about freshness again. Better yet, these steps alone eliminate several middle-man costs and handling fees.

To take charge of ration quality, follow Vigortone fortified corn-soy feeding programs. Vigortone swine pre-mixes assure that your rations always

contain proper levels of major minerals, trace elements, vitamins, and other nutrients. In addition, corn-soy and Vigortone furnish the right level and balance of all essential amino acids.

This simple approach keeps your out-of-pocket feed costs low. What's more, it actually promotes better feed conversion for lower cost of gain.

Your figures will prove it.

Now is the time to compare.
