

All feed companies are alike. If you believe that statement you could be missing an opportunity to increase your output of eggs, pork or milk—without increasing your costs.

At Pennfield, our basic goal is to help our customers make more money. We believe we can accomplish this for you, too. For these reasons:

- Customized feeding programs. We specifically tailor a program to your operation—not to an "operation like yours."

- Nutritionally-superior feeds. We go a step beyond many conventional feeds. Our feeds

have optimum nutrient density (most profitable nutrient level per pound of feed) and contain high-quality protein for balanced amino acid nutrition.

- Quality in, quality out. We chemically analyze all incoming feed grains for pesticide residues and toxins—and all finished feeds for overall quality and nutrient content.

- Technical service. We're responsive to your needs—by phone or on your farm.

- A local company. We buy our feed grains locally—shipping savings are passed on to customers. Our feeding programs are

developed and monitored from within. We don't rely on "field" trials based on local conditions.

These are other Pennfield advantages are helping hundreds of new customers increase their profits. We can do the same for you. But you must take the first step by phoning or writing us. Do it today.
