**LINCOMIX®**  
(lincomycin)  
**THE HEAVYWEIGHT**

The feed additive for the treatment and control of bloody scours (swine dysentery) from birth to market.

A number of feed additives for bloody scours are on the market: But until today, few could offer such high performance and so few feeding restrictions as Lincomix.

On-farm trials have demonstrated the efficacy of Lincomix. By controlling bloody scours, Lincomix has proven its superior performance in maintaining rate of gain and feed efficiency while reducing death losses

And Lincomix can be fed in any ration, from starter to finishing — just withdraw six days prior to slaughter. It's available in both complete feeds and supplements for on-farm mixing.

**Lincomix — THE HEAVYWEIGHT feed additive for the treatment and control of bloody scours.**

Talk to us today about getting Lincomix in your hog rations!

Look for Lincomycin on the feed tag.
