CROP PLANNING GUIDE
Crop management inputs are offered by Acco Seed Company in their new 1979 crop planning guide.

The 48-page guide is packed with useful tips on planting, managing and irrigating for higher yields. It gives crop strategies and

concise conversion and comparison charts. Also included is a separate recordkeeping section that helps farmers keep track of crop production.

Hybrids are arranged by maturity groups for easy reference. Also included is an explanation of the services available from Acco including trained dealers and experienced crop management agronomists.

"The purpose of the guide is to help our customers get the best return possible from every unit of seed run through the planter," said Murray Robinson, president of Acco Seed.
