THIS WEEK'S SPECIAL

INTERNATIONAL MODEL 570 SPREADER

The 570 is rated at 271 cu ft heaped capacity (295 bu) and is ideal for large feeding and dairying operations with daily spreading chores

For the large dairyman and the big feeder, here is the capacity you need to cope with big volume manure handling. Heaped load capacity of 271 or 312 cu ft (295 and 340 bu) ranks these tandem axle models among the biggest spreaders on the market. And yet both have the same improved Bear Claw design and the straight through underframe that greatly reduces strain on the spreader box. All are equipped with double aprons and pintle chains to move bigger volumes with ease. Both are equipped with two-speed mechanical drive Bogie axles and tandem wheels take on humps and ditches with little twist or dip. Off center mounting lightens weight on front wheels providing better cornering and less rutting in soft ground.

The beater assembly on both models has 20 Bear Claw paddles across six foot interior width. Bottom and sides of the 570 and 580 are constructed of rugged, pentatreated 3/4 inch marine type plywood reinforced with steel.

★ 295 BUSHEL CAPACITY
 ★ WITH HYDRAULIC ENDGATE

NOW ONLY \$4600⁰⁰
