

WEAVERLINE BATTERY POWERED CARTS

TWO SIZES: 24 BUSHEL MODEL 223
30 BUSHEL MODEL 224

FEED SILAGE EASIER . . . FASTER

Weaverline's self-propelled self-unloading feed carts save half the time of manual feeding. Choose the big Model 224, 30 bushel cart for big barns. Tight corners? Choose the compact Model 223, 24 bushel cart. Both Models are only 33" wide to fit thru most any doorway. Because Weaverline takes the electric

route, you get the job done quietly, without noxious fumes.

Go Weaverline for safety reasons too! Cart stops instantly if operator lets go of traction clutch . . . or if cart bumps against him in reverse travel. Sturdy bumper protects cart from damaging impacts.

6-speed control for the flow you want

Fingertip control rod at right handle has 8 positions—for starting augers and beaters and for 6 different control speeds. The Cart features high-low shift for both forward and reverse travel. U-Bar is the traction clutch; pull and cart goes, release and it stops. Knob at center activates augers.

Simple, trouble-free feeding action

Three upper augers serve as beaters to keep silage from bridging and assure steady downward movement. Bottom auger is the feeder, forcing silage out to the left and into the manger. Delivery chain and crossbars push the silage forward into the augers.

Easy servicing with roll-out power pack

View shows two of four 6-volt batteries mounted in an easy-access drawer. Slides to the right for servicing batteries shown . . . then out the opposite side for servicing the other two. A special plug receptacle is located at the base of the control box in rear of cart—right where you want it for convenient recharging of the power pack between feedings.
