

WHAT'S NEW

LOG SPLITTER

Murray Machinery, in the heart of Wisconsin's "wood country" reports a four-model lineup of splitters ready for home, commercial/rental, and rural use. The units are named Mighty Murc (after Murray's "MURCO" corporate identification), and will be marketed nationwide thru Tilton Equipment Company's four regional offices.

The Model 200AG farm unit is a 3-point hook-up splitter utilizing the tractor's hydraulic system for power to the ram. One man can

easily hook-up the splitter making it totally portable with the tractor and hydraulically raised or lowered for convenient work height. The splitting wedge, as well as Mighty Murcs, is designed to keep the logs from "riding up" as the ram pushes them into the wedge. The ram "bed" is an extra heavy 5" welded steel box frame that reduces binding and sag under splitter pressures. This model also incorporates the Auto-Return ram.

The three over-the-road Mighty Murc models all have 1-7/8 inch ball hitch for

towing, large capacity oil reservoirs for cooler hydraulic operation, five inch welded box frame member for the splitter's ram, "bed," 5 H.P. Briggs & Stratton engine, heavy-duty two-stage pump developing up to 12 tons of ram force, and "Auto-Return" ram operation.

The three models - 350EC, 550DX, and 850RC - will offer price selection based on customer needs and feature refinements such as fenders, wheel size, running lights, oil

reservoir capacity, and more.

For more information, contact Murray Machinery, Inc., Box 1167, Wausau, Wis. 54401.

Spider Webs

According to the National Geographic Society, the female golden silk spider weighs 100 times more than the male. The female also spins webs up to a yard wide which are so strong they can be used as fish nets

Longwood Gardens

warts," he says, "everyone in the United States will know."

"People who love flowers have very little hate in their hearts. All your cares melt away in a garden. It's a place of peace, of rejuvenation, of meditation.

"Everything I've seen at Longwood ties in with the 'natural life'. The planet is not ours to plunder. We should leave the earth in better condition than when we found it. The dedication of

the staff at Longwood Gardens epitomizes this by showing an immense understanding of what life is all about."

Some tentative airing dates for the shows are:

Philadelphia, channel 12: November 4 and November 18 at 12:30 p.m.; New Jersey, Channels 23, 50, 52, 58: December 24 and January 7 at 3:30 p.m.; Maryland, Channel 31 (Hagerstown) November 5 and 15 at 2 p.m.

JOHN DEERE COMPANY

JOHN DEERE PAYS YOU TO ORDER 1979 TILLAGE OR HAY TOOLS IN 1978:

Get up to \$900 in John Deere dollars plus a tax credit

Order any new John Deere equipment listed below before the dates specified and you'll earn from \$75 to \$900 in John Deere dollars you can exchange for goods or services at our store. And we'll give you our best deal on the new tool.

What's more, equipment ordered from our lot before 1978 ends can mean big savings via investment tax credit.

AGWAY

Worms Are Stealing Your Milk

Break the worm cycle with

BAYMIX FROM AGWAY

More than ninety percent of all dairy cows are worm-infested. It's true. Researchers have found worms in nine out of ten dairy cows inspected. With these odds, chances are your herd has worms (internal parasites).

Worms can cost you money by reducing...

- milk production potential
- feed efficiency
- growth of replacement animals

BAYMIX is the "Dollars and Sense" wormer. Here's why:

• There is no milk withdrawal with Baymix so you can worm the whole herd at one time - milking cows, dry cows, calves and replacements. • Only by worming the whole herd at one time can you effectively break the worm cycle and reduce internal parasitisms on the whole farm. • Easy and convenient to feed. No handling or restraints to stress animals. Just topdress on feed for six days.

Let Agway check your herd for worms...

• using a fecal test kit, Agway can tell if worms are present in your herd. If worms are present, a Baymix worming program can be started now. The recommended Baymix program to reduce parasite levels on the whole farm is a worming in the Fall and again in the Spring.

Start using Baymix and stop worms from stealing your milk.

Make an appointment for a herd fecal survey today. Contact your local Agway store.
