DUAL-TEMP

THERMA•STOR by DARI•KOOL

FREE HOT WATER IS ONLY ONE REASON FOR OWNING A THERMA•STOR

OTHER REASONS

Since the Thermo•Stor completely eliminates fan-cooled condensers, these additional advantages are yours, too:

- NO COLD WEATHER STARTING PROBLEMS**—Because now you can locate your compressors indoors.
- FASTER HOT-WEATHER COOLING AND LONGER COMPRESSOR LIFE**—Because using cold water for condensing instead of hot summer air reduces and stabilizes compressor head pressure.
- NO COSTLY COMPRESSOR FAILURES CAUSED BY BURNED-OUT FAN MOTORS.**
- NO DIRTY CONDENSER FINS TO UNCLOG.**

If you're interested in increased cooling-system reliability, better performance, less maintenance and repair—and **FREE HOT WATER**—you can get it all by owning a Thermo•Stor. And it all adds up to lower expenses and higher profits.

BUY YOUR THERMA•STOR NOW FOR YEAR END 10% TAX INVESTMENT CREDIT, AND TAX REBATE.

COST CUTTER

The cost of diesel fuel has jumped nearly 100 percent since October, 1973 and it's still about three cents a gallon cheaper than gasoline. Higher fuel costs call for a closer look at total operating costs when you buy engines. Deutz air-cooled engines use 20 to 40 percent less fuel than most water-cooled diesel engines - far less than gasoline engines. And they are competitively priced. So hadn't you better buy or specify the cost cutter - Deutz? 10 to 500 bhp.

Today there are more competitive brands of air cooled diesels on the market than ever before — yet we doubled our sales in the last two years — which says it all about public acceptance of Deutz diesels.

DEUTZ

AIR-COOLED DIESELS

- We stock rebuilt: starters, generators, injectors, for Deutz
- We have complete road service since 1955
- We supply free application engineering
- We have facilities for any mechanical fabrication required to apply new Deutz diesels
