

Blue Death dessert for rats.

If rats keep dropping by for dinner, put out some Blue Death™ from Master Mix Research. Your "gutsy guests" will really go for these tasty blue pellets—a 2 to 1 favorite over ordinary brands—and con-

sume more of its deadliness than meal-type bait. Tests show a 2 oz. snack has a 95% kill in an average of 6.2 days! So give rats their just desserts with Blue Death. It's the very last dinner invitation they'll accept!
