

Big Ben, in London, is the name neither of the clock nor the tower, but of the bell that strikes the hour. It's named for Sir Benjamin Hall, who was commissioner of works when it was installed.

Tips given to keep your poinsettias blooming

MEDIA - You can enjoy the poinsettia you receive for Christmas beyond the holidays according to James J. McKeehen, Delaware County Extension agricultural agent.

Keep your poinsettia in a sunny, warm window but make sure it's not drafty. If there's danger of chilling at night, take the plant out of the window before you go to bed.

Try to maintain soil moisture at moderate and uniform levels. The soil

should be neither too wet nor too dry. When the top of the soil is dry, water it.

After the plant stops blooming and the leaves begin to fall, gradually stop watering it. The leaves will soon turn yellow and fall.

Store the dried-off plant in a cool, dark basement at 50 to 60 degrees until April or May and water it lightly. Give it just enough to keep the roots and stems from drying out.

In May, cut the stems back 3 to 5 inches and repot the

poinsettia. Then put the plant in a warm, sunny place in your yard and keep it watered and fertilized during the Summer.

Before cool weather sets in next Fall, bring the plant inside again and put it in a window facing south, where it will get lots of light. If plants are to flower they must be kept in darkness from 5 p.m. to 8 p.m. from the 1st of October to Thanksgiving. It takes a lot of special care but some people like the challenge of trying to flower their 1978 Poinsettia for Christmas 1979.

Goodwill needs help

LANCASTER - Goodwill Industries is a comprehensive rehabilitation agency in Lancaster County with the purpose of providing a work adjustment program for handicapped people, which will enable them to return to competitive employment in the community.

The providing work adjustment is with the materials donated by the community. Within the different areas of job training, the materials are processed by the handicapped people.

Presently, Goodwill has run out of materials such as clothing, furniture and household goods. Since cold weather is here, there is a drastic reduction in the amount of donations of materials. Without materials, the handicapped have nothing with which to work and receive training. The handicapped may face a potential lack of work unless the community can respond to the urgent need for materials.

Goodwill needs your help. Please place your donations in a Goodwill Collection Box in your area, or call 717-394-0647 to schedule a pick-up.

ROUND HOLE FINISHING

HOG FEEDERS

Model HFR-74

SPUN STEEL ADDS STRENGTH WITHOUT SEAMS

The Top Lid and Bin Expander Ring are spun from single pieces of galvanized steel. Reinforcement ribs keep the Lid round for a tight fit. The one-piece Bin Expander Ring is smooth, without seams or welds to leak or hold back feed. Comes complete with steps as illustrated and 2 x 4 skids and pulls for easy moving.

FEED FLOW ADJUSTMENT

Controlled by Crank in top of Bin is connected by four Rods to Floating Feed Gate. Nudgers on Floating Gate allow hogs to agitate feed by revolving Gate full 360° as they feed.

14 GA. SPUN STEEL BASE

Seamless spun steel base provides uniform feed flow. A smooth, steep cone extends within an inch of the adjustable Feed Gate to keep feed within easy reach of the hogs whether the Bin is full or low.
